Types of Requests

There are three types of requests handled by Zoning Administration staff and the Zoning Board of Adjustment as authorized by Chapters 4 and 5 of the Charlotte Zoning Ordinance. Below, please find a brief description of each request type.

1. **Variance Request – (Submit forms 1 and 2 only)**
   This is a request to vary the standards of the Zoning Ordinance. One common variance request is for an applicant to seek relief from a front setback or side/rear yard requirement.

   **Example:** An applicant requests to allow their house to be located 40 feet from their rear property line rather than 45 feet as required by zoning ordinance section 9.205 (1) (g) for an R-3 zoning district.

   **Decision Maker:** Zoning Board of Adjustment

   **Requirements** *(all three must be true):*
   a. The difficulty or hardship would result only from these regulations and from no other cause, including the actions of the owner or previous owners of the property; and
   b. The difficulty or hardship is peculiar to the property in question and is not generally shared by other properties in the same neighborhood and/or used for the same purposes; and
   c. The request must be consistent with the spirit, purpose, and intent of the ordinance.

2. **Appeal Request – (Submit forms 1 and 3 only)**
   This type of request is initiated when an applicant feels that the zoning administrator, enforcement officer or plans reviewer has made an error in applying the standards of the zoning ordinance. One common appeal results from a disagreement between an applicant and enforcement officer when a Notice of Violation has been issued for an alleged violation of the zoning ordinance.

   **Example:** An applicant receives a Notice of Violation for running a business in a residential zoning district, however, the applicant claims that the business is grandfathered because it was established prior to the adoption of the zoning ordinance and has been in continuous operation since its establishment.

   **Decision Maker:** Zoning Board of Adjustment

   **Requirements:** An error in the application of the ordinance must be found in order to reverse the decision of the zoning administrator, enforcement officer or plans reviewer.

3. **Administrative Deviation Request – (Submit forms 1 and 4 only)**
   Section 4.107 of the zoning ordinance authorizes the zoning administrator to provide limited relief from quantifiable ordinance requirements. Allowable deviations include deviations from yard and buffer requirements for up to a 2 foot encroachment (3 feet for HVAC units), up to a 5 percent deviation for other quantifiable ordinance requirements, and encroachments for handicap ramps.

   **Example:** An applicant requests permission to place an air conditioning unit 3 feet from the side property line rather than 5 feet as required by zoning ordinance section 9.205 (1) (f) for an R-4 zoning district.

   **Decision Maker:** Zoning Administrator

   **Requirements** *(at least one must be true):*
   a. There must be something peculiar about the lot that would be a basis for an inadvertent error; or
   b. The physical layout of the lot and structures makes adherence to the standard impractical; or
   c. Application of the ordinance standard would not serve a useful purpose; or
   d. The applicant has agreed to measures that would reduce the impact of the requested deviation on adjacent property owners.
Application Procedures and Instructions

The following is the general instructions for filing any of the three requests discussed above. Specific application submittal checklists and instructions are included later for each of the forms described below:

Submission of Application Forms

a. **Pre-meeting Requirement.** A pre-meeting with zoning administration staff is **required** prior to the submission of any type of application. Please contact 704-336-8314 to set up an appointment.

b. **Application Deadlines.** Applications must be submitted in accordance with the Schedule of Meetings and Submission Deadlines on page 15 of this packet. Please note that a request for an appeal must be filed within 30 days from receipt of the written decision or receipt or actual or constructive notice of the written decision. Appeals of HDC decisions must be filed within 30 days from the date of the issuance or denial of the Certificate of Appropriateness. A maximum of 10 cases are scheduled for each Board of Adjustment meeting.

c. **Application Types**
   
i. **For a variance request,** please complete forms 1 and 2 and submit with the required materials indicated on the Variance Request Checklist on page 6.

   ii. **For an appeal request,** please complete forms 1 and 3 and submit with the required materials indicated on the Appeal Request Checklist on page 9.

   iii. **For an administrative deviation request,** please complete forms 1 and 4 and submit with the required materials indicated on the Administrative Deviation Request Checklist on page 12.

d. **Fees.** All applications must be filed with the non-refundable fee as outlined in the Schedule of Fees on page 16.

e. **Application Filing.** All applications **must be filed in person** at the Planning Department’s office. Our office is located on the 8th floor of the Charlotte-Mecklenburg Government Center (600 East 4th Street). An appointment is strongly encouraged. **To schedule an appointment please call 704-336-8314.**

f. **Signature Required.** Make sure each form is properly signed. **Unsigned applications cannot be accepted.**

g. **Completeness Requirement.** Illegible and incomplete applications cannot be accepted. Applicants are strongly encouraged to type their applications. Electronic versions of these applications are available at www.charmeck.org/Departments/Planning.

h. **Application Copies.** **One (1)** copy for administrative deviation requests. **Fifteen (15)** copies for variance and appeal requests including **original** of your application and all required materials (per the applicable checklist) must be submitted for your submission to be considered complete. **Please fold larger maps and other materials to 8 ½ x 14 inch size.**
Application Processing by Staff

The following describes how staff handles your application once submitted:

**Staff Processing**

a. **Check for Completeness.** Staff will ensure that the application is complete and signed by the appropriate parties.

b. **Schedule the Case.** The clerk will assign a case number and hearing date. Please note that there is a 10 case limit per hearing date.

c. **Alternatives Analysis.** Staff will review your application and the ordinance to determine if any alternatives exist during your pre-application meeting.

d. **Site Visit.** Staff will visit the site and take photographs for use at the hearing.

e. **Adjacent Property Owner Notification.** The clerk will prepare and mail hearing notices to adjoining property owners, the applicant and agent.

f. **Packets Sent to Board Members.** Meeting agendas and application packets are mailed to Board of Adjustment members approximately 10 days prior to the hearing date.

g. **Staff Report.** Staff will prepare a staff report and make a recommendation (variances and appeals) or decision (administrative deviations) on the request.

h. **Public Hearing.** A public hearing is held for all cases that require Board of Adjustment action. Meeting dates and times are outlined in the Schedule of Meetings and Submission Deadlines on page 15.
Hearing Procedures

The following describes how the Board of Adjustment conducts appeal and variance hearings:

1. **Order for each Board of Adjustment Agenda Item:**
   a. The chairman will ask all those wishing to speak on an item to stand and be sworn in. All testimony must be given under oath.
   b. A Zoning Administration staff member will explain why a permit was denied, or why a variance is requested and offer staff’s recommendation.
   c. The Board may question the staff member, and then the Applicant may question the staff member.
   d. The Applicant presents his testimony for this case.
   e. The Board may question the Applicant, and the staff member may question the Applicant.
   f. The Applicant may present sworn witnesses. They will be subject to questioning.
   g. Other parties wishing to speak, pro or con, will be given reasonable time to present sworn testimony.
   h. The staff and then the Applicant will be given an opportunity for rebuttal and final comments.

2. **Sworn Testimony.** The Board is acting in a quasi-judicial capacity for purposes of this hearing and can accept only sworn testimony. While the Board will not specifically exclude hearsay evidence, it is only given limited weight.

3. **Legal Representation.** If you choose, an attorney may represent you at the hearing at your expense.

4. **Speaker Registration.** All parties who plan to give testimony, pro or con, must complete the blue form to speak. The blue form is available in the meeting room.

5. **Board Decision.** After hearing all cases, the Board will review each case and render a decision within a reasonable time. This is usually done in a closed discussion with deliberations immediately following the morning cases and then again after the afternoon cases.
   a. You may remain present during the deliberations, or
   b. You may call the Zoning staff after the session to receive the decision of the Board.

6. **Exhibits.** All exhibits must remain with the Board. At the hearing, first hand exhibits to the clerk for tagging, you may then proceed to present the exhibit to the Board. If your case is not appealed to Superior Court thirty (30) days after the Board’s decision is filed, you may pick up your exhibits. Exhibits not picked up will be destroyed.

7. **Conflict of Interest.** If you feel there is a conflict of interest of any Member of the Board or an association that would prejudice your case, please let it be known at the start of your case.

8. **Appeals.** Appeal from this Board is to the Mecklenburg County Superior Court. You have thirty (30) days from the later of: (a) the decision of the board is effective, or (b) a written copy of the decision is delivered in accordance with NCGS 160A-388(e2)(1).

9. **Please turn off your cell phone and other electronic devices.**

10. **Help the Board run an efficient meeting:**
    a. Keep testimony to the relevant facts of the case. Board members review your application packet prior to the meeting so they will be familiar with your request.
    b. Do not repeat testimony.
    c. Hearsay evidence can be given only limited weight. Applicants and witnesses should have first-hand knowledge of the situation.

The City of Charlotte will comply with the American with Disabilities Act (ADA), which prohibits discrimination on the basis of disability. If you need special accommodations to attend and participate in the meeting or need this information in an alternative format because of your disability, please contact the Zoning Administration staff at 704-336-8314 at least 72 hours prior to the meeting.
Hearing Request Application - Form 1  
Zoning Board of Adjustment

Variance Request Checklist and Instructions

Limitations

1. The Board of Adjustment is prohibited from granting use variances. A use variance is a request that would allow the establishment of a use not otherwise permitted in a particular zoning district.

Instructions

1. **Fill out the form completely.** Because the board must find evidence to support each of the questions/statements, the answer “not applicable” is generally not acceptable and will delay your request. Incomplete applications cannot be accepted.

2. In order for the Board to grant a variance, **an unnecessary land hardship must be demonstrated.** Per Section 5.108 of the zoning ordinance, only the following conditions shall constitute a hardship (all three must be met):
   
   a. The difficulty or hardship would result only from these regulations and from no other cause, including the actions of the owner or previous owners of the property; and

   b. The difficulty or hardship is peculiar to the property in question and is not generally shared by other properties in the same neighborhood and/or used for the same purposes; and

   c. The request must be consistent with the spirit, purpose, and intent of the ordinance.

Checklist

☐ **15 copies** of your signed application (includes one original) and all required materials (per the applicable checklist) must be submitted for your submission to be considered complete. Please fold larger maps and other materials to 8½ x 14 inch size.

☐ If applicable, attach a copy of your permit or plan review comments if this variance resulted from a permit or plan denial.

☐ If this is a new construction project or requested to do so in your pre application meeting, attach an address verification form available by contacting 704-336-6175.

☐ A survey or to scale site plan must be included. The survey or site plan should include:
   - all existing buildings and structures on the property
   - all easements for streets, utilities, driveways and others
   - all proposed improvements should be drawn on the survey or site plan to scale
   - shade in the map to highlight the portion of the improvements that are subject to the requested variance (i.e. for a setback variance, the amount beyond the setback line)

☐ Architectural drawings are strongly encouraged to assist the Board in determining if the request is in harmony with the surrounding neighborhood.

Additional Information

1. If construction has started, no further work shall be done on those portions of the project in violation of the zoning ordinance.

2. If this variance request is a result of a Notice of Violation, no further enforcement action shall be taken by the City until the Board of Adjustment makes a decision regarding your case.

3. Per section 5.112 of the zoning ordinance, once a case has been heard, the Board may not hear the same case for a period of two years.

(2) Please describe why the variances requested are necessary.

(3) THERE ARE UNNECESSARY HARDSHIPS IN THE WAY OF CARRYING OUT THE STRICT LETTER OF THE ORDINANCE. The courts have developed rules to determine whether, in a particular situation, "practical difficulties or unnecessary hardships" exist. State facts and arguments in support of each of the following:

(a) The hardship of which the Applicant complains results from unique circumstances related to the Applicant's land such as location, size, or topography. (Note: Hardships common to an entire neighborhood, resulting from overly restrictive zoning regulations, should be referred to the Charlotte-Mecklenburg Planning Department. Also, unique personal or family hardships are irrelevant since a variance, if granted, runs with the life of the land.)
(b) The hardship is not the result of the Applicant's own actions. The act of purchasing property with knowledge that circumstances exist that may justify granting of a variance shall not be regarded as a self-created hardship.

(4) THE VARIANCE IS CONSISTENT WITH THE SPIRIT, PURPOSE, AND INTENT OF THE ORDINANCE (State facts and arguments to show that the requested variance represents the least possible deviation from the letter of the Ordinance to allow a reasonable use of the land; and, that the use of the property, if the variance is granted, will not substantially detract from the character of the neighborhood.)

(5) THE GRANTING OF THE VARIANCE SECURES THE PUBLIC SAFETY AND ACHIEVES SUBSTANTIAL JUSTICE. (State facts and arguments to show that, on balance, if the variance is approved, the benefit received by the Applicant will substantially outweigh the harm suffered by to the public.)
Appeal Request Checklist and Instructions

Limitations

1. The Board of Adjustment may only reverse an order or finding of a zoning staff member if they find that an ordinance provision was applied in error. This application must be filed within thirty (30) days of a Notice of Violation or the written interpretation/decision of the Zoning Administrator or other City zoning staff member. Applications filed more than 30 days after a written decision or violation notice cannot be accepted.

2. The Board of Adjustment may affirm, reverse, or modify any HDC decision after determining if there was an error of law or no competent or substantial evidence to support the HDC decision. This application must be filed within thirty (30) days from the date of the issuance or denial of the Certificate of Appropriateness. Applications filed more than 30 days cannot be accepted.

Instructions

1. Fill out the form completely. Because the board must find evidence to support each of the questions/statements, the answer “not applicable” is generally not acceptable and will delay your request. Incomplete applications cannot be accepted.

Checklist

☐ 15 copies of your signed application (includes one original) and all required materials (per the applicable checklist) must be submitted for your submission to be considered complete. Please fold larger maps and other materials to 8 ½ x 14 inch size.

☐ If applicable, attach a copy of your permit or plan review comments if this appeal resulted from a permit or plan denial. In addition, submit a copy of your submitted site plan and highlight those areas that are subject to this appeal.

☐ If applicable, attach a copy of your Notice of Violation if this appeal resulted from an alleged violation of the zoning ordinance.

☐ If this is a new construction project or requested to do so in your pre-application meeting, attach an address verification form available by contacting 704-336-6175.

Additional Information

1. If construction has started, no further work shall be done on those portions of the project in violation of the zoning ordinance.

2. If this appeal request is a result of a Notice of Violation, no further enforcement action shall be taken by the City until the Zoning Administrator makes a decision regarding your request.

3. Per section 5.112 of the zoning ordinance, once a case has been heard, the Board may not hear the same case for a period of two years.

Administrative Deviation Request Checklist and Instructions

Limitations

1. Deviation requests may not exceed 5% of quantifiable standards. Approvals may only be granted if one of the following conditions is present:
   a. The physical layout of the land, street or other geographical or topographical feature lead to an inadvertent error; or
   b. The existing physical layout of the land or structures upon it prevent compliance; or
   c. Due to the nature of the adjacent land use or lay of the land, the application of the ordinance requirement would serve no useful purpose; or
   d. The applicant has agreed to measures that would mitigate the requested deviation.

2. **Yard and Buffer Requests Only** - Deviation requests for a yard or buffer requirement are limited to two (2) feet except when involving heating and air conditioning units when a three (3) foot deviation may be requested.

3. The Zoning Administrator may only apply items 1 or 2 above. He/she may not apply both items.

4. **Handicap Ramps and Similar Structures Only.** When required by law, the Zoning Administrator may approve an encroachment for a handicap ramp or other similar structure when no other reasonable location is feasible.

Instructions

1. Fill out the form completely. The Zoning Administrator must find evidence to support each of the required findings in order to approve your request. Incomplete applications cannot be accepted.

Checklist

- If applicable, attach a copy of your permit or plan review comments if this variance resulted from a permit or plan denial.

- If this is a new construction project or requested to do so in your pre-application meeting, attach an address verification form available by contacting 704-336-6175.

- A survey or to scale site plan must be included. The survey or site plan should include:
  - all existing buildings and structures on the property
  - all easements for streets, utilities, driveways and others
  - all proposed improvements should be drawn on the survey or site plan to scale
  - shade in the map to highlight the portion of the improvements that are subject to the requested deviation (i.e. for a setback variance, the portion of the structure beyond the setback line)

Additional Information

1. If construction has started, no further work shall be done on those portions of the project in violation of the zoning ordinance.

2. If this deviation request is a result of a Notice of Violation, no further enforcement action shall be taken by the City until the Zoning Administrator makes a decision regarding your request.

3. Per section 4.107 (4) (c) of the zoning ordinance, if an aggrieved person objects to the requested deviation with a stated reason, the Zoning Administrator must deny the request and the applicant would need to file for a Variance Hearing with the Board of Adjustment.

Quasi-Judicial Hearings on Zoning and Land Use

Inquiry:
May a person who is not a lawyer appear before planning boards, boards of adjustment, or other governmental bodies conducting quasi-judicial hearings in a representative capacity for another party?

Opinion:
At its October 2005 meeting, the Authorized Practice Committee responded to an inquiry concerning the propriety of a person who is not a lawyer appearing before planning boards, boards of adjustment, and city and county government in a representative capacity. The committee's advisory opinion distinguished appearances on legislative concerns, such as general rezoning cases and ordinance amendments, from appearances on behalf of petitioners for special use permits and variances, which are quasi-judicial matters. The committee has received comments from a number of interested parties, including architects, land use planners, and city and county attorneys as a result of that opinion. The committee is issuing this advisory opinion to supplement the prior opinion.

The committee has received comments from a number of interested parties, including architects, land use planners, and city and county attorneys as a result of that opinion. The committee is issuing this advisory opinion to supplement the prior opinion.

First, the committee reiterates that the adoption of ordinances and amendments to official zoning maps (i.e. general rezoning cases) by the elected officials in city and county governments are legislative in nature and that any interested person may appear and speak on such matters before governmental bodies, even as representatives of groups or interested parties, without engaging in the unauthorized practice of law. Nonetheless, the general statutory prohibitions on unauthorized practice of law still apply even to persons who appear before governmental bodies on legislative matters. Non-lawyers may not hold themselves out as attorneys, provide legal services or advice, or draft any legal documents with regard to such matters. See N.C. Gen. Stat. §§ 84 2.1 and 4.

The law is clear that hearings on applications for special use permits and variances under zoning ordinances, as well as appeals from staff level interpretations related to permits, are quasi-judicial proceedings. N.C. Gen. Stat. §§ 153A-345 and 160A-381 and 388. See, Humble Oil & Refining Co. v. Bd. of Aldermen of Chapel Hill, 284 N.C. 458, 202 S.E.2d 129 (1974) and Woodhouse v. Board of Comm’rs of Nags Head, 299 N.C. 211, 261 S.E.2d 882 (1980). (For simplicity, the quasi-judicial hearings before these bodies are hereafter referenced to as a "variance hearing" unless the context indicates otherwise.) The governmental body before which the variance hearing is conducted sits in a judicial role of applying the standards of an ordinance to the particular circumstances of a particular party. Accordingly, the role of the governmental body is to receive evidence and make decisions based upon the evidence presented.

Variance hearings require the governmental body hearing the matter to observe certain formalities. Evidence, including witness evidence, is presented to the hearing body, although the Rules of Evidence need not be strictly observed. All witnesses before the body must be sworn and their testimony is subject to cross-examination. The hearing body has the power and authority to issue subpoenas to compel witness testimony. A record of the proceedings must be preserved. The decision is to be based upon the evidence presented at an open hearing, and not on extraneous matters or personal knowledge of the members of the board. The applicant has the burden of proof. The board must make written findings of fact to support its decision. And, the decision of the board is reviewable by the courts on appeal based solely upon the record of the proceedings.

The committee believes that the law is also clear that an appearance on behalf of another person, firm, or corporation in a representative capacity for the presentation of evidence through others, cross-examination of witnesses, and argument on the law at a quasi-judicial proceeding is the practice of law. N.C. Gen. Stat. §§ 84 2.1 and 4. Consequently, because the variance hearings are by definition quasi-judicial proceedings, the committee concludes that it is the unauthorized practice of law for someone other than a licensed attorney to appear in a representative capacity to advocate the legal position of another person, firm, or corporation that is a party to the proceeding.

The committee has been urged to recognize that architects, landscape architects, land use planners, and engineers play a vital role at these quasi-judicial proceedings by presenting necessary facts and information on behalf of their clients at variance hearings. The committee agrees that the information these professionals can present is critical to the decision before the hearing body. These professionals are subject matter experts whose expert opinions, as witnesses, must be presented to the hearing body. They
are witnesses who are in the best position to explain to the hearing body the facts of the proposed design and its anticipated
effects on a variety of factors, including traffic, environment, and aesthetics, within the framework of matters properly under
consideration at the variance hearing. The committee does not believe that the role of legal advocate by attorneys in quasi-judicial
proceedings should interfere with or inhibit the role of non-lawyer professionals who speak as witnesses and present information
at these quasi-judicial proceedings. In fact, their roles should be complementary.

It is axiomatic that the committee has no authority to amend or formulate exceptions to the statutes. In issuing an advisory
opinion, it simply articulates how it believes a court would ultimately resolve the question for the guidance of the public. The
committee cannot recognize or create exceptions to the law as expressed by the legislature and the courts. Further, we believe, as
a practical matter, that effective representation of parties in variance hearings is becoming increasingly dependent upon legal
advocacy of the rights of the parties with an eye toward compiling a supportable record in the event of an appeal. These are the
skills an attorney provides. While it is true that many of these hearings involve routine and non-controversial matters, even
questions about matters such as the height of residential fences may become the subject matter of an appeal where the appellate
courts may only consider the record produced at the variance hearing. See Robertson v. Zoning Board of Adjustment for the City
of Charlotte, 167 N.C. App. 531, 605 S.E.2d 723 (2004). It is difficult to predict in advance when a matter may require a
comprehensive record for appellate purposes. Therefore, with this further elaboration, the committee re-affirms its initial opinion
expressed by letter dated October 31, 2005, that the representation of another person at a quasi-judicial hearing is the practice of
law.

That said, this opinion should not be interpreted to diminish the role and expertise of land use professionals as witnesses at
variance hearings. These professionals may still present their evidence in support of the position of their clients. However, they
may not examine or cross-examine other witnesses or advocate the legal position of their clients.

The committee's opinion is also not intended to affect the ability of city and county planning staff to present factual information
to the hearing board, including a recitation of the procedural posture of the application, and to offer such opinions as they may be
qualified to make without an attorney for the government present, as the committee understands is the proper, current practice
and role of the planning staff. Further, nothing in this opinion should be interpreted as limiting the ability of a corporate officer or
employee from testifying on factual matters on behalf of a corporate party during a hearing or suggesting that individual parties
may not represent themselves before these boards.

In sum, the committee is of the opinion that land use professionals, including architects, engineers, and land use planners, may
appear and testify as to factual matters and any expert opinions that they are qualified to present at quasi-judicial proceedings, but
the presentation of other evidence, including the examination and cross-examination of witnesses, making legal arguments, and
the advocacy for results on behalf of others before quasi-judicial zoning and land use hearings, is the practice of law that may be
performed only by licensed attorneys at law.
