**LOCAL HISTORIC DISTRICT:**  Dilworth

**PROPERTY ADDRESS:**  536 E Tremont Avenue

**SUMMARY OF REQUEST:**  New Construction

**OWNER:**  William Fitzgerald

**APPLICANT:**  William Fitzgerald

### Details of Proposed Request

#### Existing Conditions

The vacant parcel is a through lot with frontage on East Tremont Avenue and Dilworth Mews Court. The subdivision ordinance allows a home to be constructed because it meets the street frontage requirements on Dilworth Mews Court. The slope of the lot falls significantly from East Tremont Avenue. The surrounding context is a mix 1, 1.5 and 2 story homes. Setbacks along the subject block are varied. However, the setbacks from the 600-630 side of East Tremont are generally deeper than the 502-528 side.

#### Proposal

The proposal is a new two story home fronting East Tremont Avenue with a detached garage on Dilworth Mews Court. Because of the lot configuration the width of the home is 20’ and the height is approximately 31’ - 8.5”. The front porch will be full width. Siding will be wood and cedar shingles in the gables. All windows will be Simulated Divided Light. The setback will be in line with the homes further from the street. The garage will have similar details as the home.

### Policy & Design Guidelines for New Construction

New construction in Local Historic Districts has an obligation to blend in with the historic character and scale of the Local Historic District in which it is located. Designs for infill projects and other new construction within designated Local Historic Districts must be designed with the surroundings in mind. The Historic District Commission will not specify a particular architectural style or design for new construction projects. The scale, mass and size of a building are often far more important than the decorative details applied. However, well designed stylistic and decorative elements, as well as building materials and landscaping, can give new construction projects the attributes necessary to blend in with the district, while creating a distinctive character for the building. New construction projects in Local Historic Districts must be appropriate to their surroundings.

The Historic District Commission will review the building details for all new construction as part of their evaluation of new construction project proposals.
### All New Construction Projects Will Be Evaluated For Compatibility By The Following Criteria

<table>
<thead>
<tr>
<th></th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Size</td>
<td>the relationship of the project to its site</td>
</tr>
<tr>
<td>2. Scale</td>
<td>the relationship of the building to those around it</td>
</tr>
<tr>
<td>3. Massing</td>
<td>the relationship of the building’s various parts to each other</td>
</tr>
<tr>
<td>4. Fenestration</td>
<td>the placement, style and materials of windows and doors</td>
</tr>
<tr>
<td>5. Rhythm</td>
<td>the relationship of fenestration, recesses and projections</td>
</tr>
<tr>
<td>6. Setback</td>
<td>in relation to setback of immediate surroundings</td>
</tr>
<tr>
<td>7. Materials</td>
<td>proper historic materials or approved substitutes</td>
</tr>
<tr>
<td>8. Context</td>
<td>the overall relationship of the project to its surroundings</td>
</tr>
<tr>
<td>9. Landscaping</td>
<td>as a tool to soften and blend the project with the district</td>
</tr>
</tbody>
</table>

### Staff Analysis
The Commission should discuss Scale, Massing, Fenestration Rhythm and Context. The guidelines for Size, Setback and Materials are met.
The FitzGerald Residence
600 Tremont
Charlotte, North Carolina

Glazing Requirements
As approved by window manufacturer. Tempered
glass as required by code and or building owner.
Glazing may be Low E included.
