**DETAILS OF APPROVED PROJECT:** Fence. A new fence will enclose the rear yard, see exhibit labeled 'Site Plan – June 2015'. The bottom of the fence will be of vertical wood slats framed off and topped by vertical lattice also framed off. The bottom portion of the fence, including framing members, will measure 4'-4" and the top portion of the fence, including framing members, will measure 1'-8" for a total fence height of 6'-0". The wood fence panels will be butt joined to 4"x4" uprights. Chamfered tops of uprights will extend above the fence. A gate will enclose the end of the existing driveway, see exhibit labeled 'Site Plan – June 2015'. The gate closely matches the style of the fence with two exceptions: the gate will have a slightly concave top and the panels will be butt joined to 6"x6" uprights. Both the fence and gate will be painted or stained. Any framing members of the fence and gate will face inward to the property being enclosed or both sides will be the same.
