Applicable Policy & Design Guidelines – Additions

2. Additions must respect the original character of the property, but must be distinguishable from the original construction.

-Windows and Doors

1. All replacement doors and windows should retain the same configuration and details as the originals.
2. All replacement windows must have either true divided lights or molded exterior muntins, if appropriate. Flat exterior or interior false muntins only are not in keeping with the character of most older structures. Muntin design must reflect the original window configuration. 4. Ideally, window and door openings cannot be reduced or enlarged.
5. All newly installed replacement windows must have proper trim that recognizes historic precedent on the building and within its context.
