

Solid Waste Services Rezoning Petition Notes

2009-053 – Charlotte Housing Authority

Reviewer: Sarah Poulton

Date: September 29, 2009

Comments:

The current state of the rezoning plans comply with Solid Waste standards but if the proposed development will eventually include residential units or if the Charlotte Housing Authority plans to use the City's Multifamily and Public Facilities contract for their garbage service, they will have to indicate garbage allotment areas.

Other issues:

None
