

Petition No: 2010-021

RECOMMENDATION

We have the following comments that are critical to CMS' support of this petition:

Adequacy of existing school capacity in this area is a significant problem. We are particularly concerned about rezoning cases where school utilization exceeds 100% since the proposed development will exacerbate this situation. Approval of this petition will increase overcrowding and/or reliance upon mobile classrooms at the schools listed below.

The total estimated capital cost of providing the additional school capacity for this new development is \$350,000 calculated as follows:

Middle School: 7x \$23,000 = \$161,000

High School: 7 x \$27,000 = \$189,000

CMS recommends the petitioner schedule a meeting with staff to discuss any opportunities that the petitioner/developer may propose to improve the adequacy of school capacity in the immediate area of the proposed development.

TOTAL IMPACT FROM PROPOSED DEVELOPMENT

Proposed Housing Units: 110 multi-family units under NS zoning

CMS Planning Area: 13

Average Student Yield per Unit: 0.2374

This development will add approximately 26 students to the schools in this area.

The following data is as of 20th Day of the 2009-10 school year.

<i>Schools Affected</i>	<i>Capacity Without Mobiles</i>	<i>20th Day, 2009-10 Enrollment (non-ec)</i>	<i>Additional Students As a result of this development</i>	<i>Total Enrollment As a result of this development</i>	<i>20th Day, 2009-10 Utilization (Without Mobiles)</i>	<i>Utilization As a result of this development (Without Mobiles)</i>	<i>Number of Mobiles</i>
BALLANTYNE ES	883	770	12	782	87%	89%	0
COMMUNITY HOUSE MS	1239	1527	7	1534	123%	124%	6
ARDREY KELL HS	1914	2011	7	2018	105%	105%	0

INCREMENTAL IMPACT FROM PROPOSED DEVELOPMENT*

Existing number of housing units allowed: No residential units under O-1 (CD) zoning

Number of students potentially generated under current zoning: No students

The development allowed under existing zoning would generate zero students, while the development allowed under the proposed zoning will produce 26 students. Therefore, the net change in the number of students generated from existing zoning to proposed zoning is 26.

As requested, we are also providing information regarding the difference in the number of potential students from the existing zoning to the proposed zoning. Please note that this method of determining potential numbers of students from an area underestimates the number of students CMS may gain from the new development.
