**ZONING COMMITTEE
DISCUSSION**

Staff reviewed the specifics of the two proposed development scenarios including the requested optional provisions. It was noted that the list of permitted uses identified on sheet 2 of 3 would need to be modified by the petitioner to match the list of permitted uses identified on sheet 1 of 3. In conclusion, staff noted that the retail uses within the request are inconsistent with the *SouthPark Small Area Plan*. However, the office component is consistent and the overall development meets the mixed use goal of the plan.

A commissioner asked staff how the optional provision regarding signage would affect the existing signage and the location of future signage. Staff responded by stating existing detached signs would be allowed to remain and future detached signs would be allowed to be placed within the 20-setback as long as they are located between the building and the back of sidewalk and new signs would meet the dimensional requirements of the MUDD district.

A commissioner questioned the resolution of the outstanding issue regarding the request for preservation of the existing 46" oak tree on the subject site. It was stated that Urban Forestry staff had inspected the tree and was found to be healthy. However, following discussions with the petitioner's agent, Urban Forestry staff decided to remove their request to preserve the tree due to its impact on the future building(s) and their understanding that the tree would remain until the site is redevelopment. Commission members encouraged the petitioner to preserve the tree.

A commissioner asked if the site would be required to comply with the revised Tree Ordinance, which was recently adopted by City Council, or the previous Tree Ordinance. Staff stated that the revised Tree Ordinance was adopted with an effective date of January 1, 2011. Therefore, if the rezoning is approved prior to that effective date, the site will not be required to comply with the revised Tree Ordinance regulations. It was noted that when a site is rezoned to a conditional rezoning classification, it receives a 2 year vesting period. If a formal plan submission has not been made and accepted for review prior to the date that the vested rights for the conditional zoning district expire the revised Tree Ordinance regulations will apply.

**STATEMENT OF
CONSISTENCY**

This petition is found to be inconsistent with the *SouthPark Small Area Plan* but to be reasonable and in the public interest, by a unanimous vote of the Zoning Committee (motion by Commissioner Dodson seconded by Commissioner Fallon).

STAFF OPINION

Staff agrees with the recommendation of the Zoning Committee.
