Recommendations and/or Ordinance Requirement Reminders

Storm Water Services

The requirements of the post-construction storm water ordinance for the City of Charlotte should be applied to the proposed rezoning. More detailed information regarding ordinance requirements is available at the following website:

<http://charmeck.org/stormwater/regulations/Pages/Post-ConstructionStormWaterOrdinances.aspx> and click on City of Charlotte.

S.W.I.M. Stream Buffers:

Public paths and trails parallel to the stream must stay outside the Stream Side Zone, except for stream crossings.

S.W.I.M. stream buffer requirements apply as described on the following website:
<http://charmeck.org/stormwater/regulations/Pages/SWIMOrdinances.aspx> .

In addition, the buffer requirements specified in the post-construction storm water ordinance, as described on the website indicated above, also apply. In the event that different requirements occur in the post-construction ordinance compared to the S.W.I.M. stream buffer ordinance, the more stringent will apply.

Air Quality

Development of this site may require submission of an asbestos Notification of Demolition and Renovation due to possible demolition or relocation of an existing structure or renovation of a load-bearing wall in an existing structure. This notification is required in accordance with the Mecklenburg County Air Pollution Control Ordinance (MCAPCO) Regulation 2.1110 - Subparagraph (a) - "National Emission Standards for Hazardous Air Pollutants". A letter of notification and the required forms will be mailed directly to the parcel owner.

Please contact the staff members who conducted the reviews if you have any questions.
