ZONING COMMITTEE DISCUSSION	<p>Corrective rezoning petition 2012-016 was deferred by the Zoning Committee at its March 28th meeting due to concerns by some of the Commissioners about notification requirements and the public involvement process, and how new zoning districts and regulations would affect property owners' ability to make improvements to structures.</p> <p>Staff presented the above-referenced petitions collectively, providing an overview of the public involvement and noticing process, along with information regarding development requirements under the existing and proposed zoning districts. A Commissioner asked why corrective rezonings are in the interest of the City. Another Commissioner suggested that the area plan process should improve how it looks at conditions throughout a plan area and possible impacts to better determine the appropriateness of a corrective rezoning.</p>

FINAL STAFF ANALYSIS
(Pre-Hearing Analysis online at www.rezoning.org)

PLANNING STAFF REVIEW

- **Background**
 - The recently adopted *Elizabeth Area Plan* recommends rezoning the subject properties to align the zoning with the current land use. The subject parcels are located within a small area of R-22 MF zoning which is in the core of the Elizabeth single family residential neighborhood. As the properties are used for single family purposes rezoning to R-5 is appropriate.

- **Proposed Request Details**
 - This is a conventional rezoning petition with no associated site plan.
 - **Public Plans and Policies**
 - The *Elizabeth Area Plan* (2011) recommends residential up and equal to five dwelling units per acre on all of the subject parcels. The plan recommends that lower density residential areas of Elizabeth should be preserved and protected, retaining their existing scale and character, with duplexes, triplexes, and quadraplexes organically interspersed among the neighborhood's predominantly single family structures.
 - This petition is consistent with the *Elizabeth Area Plan*.
 - **Staff Recommendation (Updated)**
 - Staff agrees with the recommendation of the Zoning Committee.
