### I. SUMMARY REMARKS:

We request that the Petitioner provide a bus stop with shelter and waiting pad for future service along the new internal street. The location of the stop is flexible, but should be located where an accessible pedestrian route to a primary entrance of the mall is provided via proposed internal sidewalks. For a recent example, below is an oblique aerial of the internal bus stop at Northlake Mall. Please also see attached standard for shelter and waiting pad along a street with planting strip. Please contact me if there are any questions relative to this request. Thank you.
