

To: Michael Cataldo, CMPC  
From: Tom Ferguson, Engineering Land Development  
Date: February 22, 2013  
Rezoning Petition #: 2013-030 (revised 2/22/2013)

Detailed construction plans for the proposed site development are to be submitted for review and approval to the City of Charlotte's Land Development Division **after land entitlement (approved rezoning)**. Staff from City Land Development, Charlotte DOT, and the Planning Department review and inspect development projects in order to ensure compliance with pertinent City ordinances and standards. Please note Building Permit applications can be submitted concurrently to Mecklenburg County Code Enforcement and permit issuance will be conditioned upon the City of Charlotte's plan approval as required. Additional information may be found at our website: <http://development.charmeck.org>.

The Petitioner acknowledges that in addition to the conditions set forth in this petition and in the Zoning Ordinance, development requirements imposed by other City ordinances, construction standards, and design manuals do exist, are not waived or modified by the rezoning approval, and may be applicable to the proposed development. These development requirements include the regulation of streets, sidewalks, trees, and storm water. Where the conditions set forth in this Rezoning Plan conflict with other City development requirements, the stricter condition or requirement shall apply.

**Specific comments for this rezoning petition:**

Notes "a" and "b" under the "Environmental Features" heading on the plan apparently refer to Zoning land use buffers. Buffer references under the "Environmental Features" heading are typically related to stream buffers. Please relocate the land use buffer notes under the appropriate heading on the plan or revise the notes to make it clear the notes do not refer to stream buffers.
