

To: Tammie Keplinger, CMPC
From: Alice Christenbury, Engineering Land Development
Date: March 20, 2013
Rezoning Petition #: 2013-043

Detailed construction plans for the proposed site development are to be submitted for review and approval to the City of Charlotte's Land Development Division **after land entitlement (approved rezoning)**. Staff from City Land Development, Charlotte DOT, and the Planning Department review and inspect development projects in order to ensure compliance with pertinent City ordinances and standards. Please note Building Permit applications can be submitted concurrently to Mecklenburg County Code Enforcement and permit issuance will be conditioned upon the City of Charlotte's plan approval as required. Additional information may be found at our website: <http://development.charmeck.org>.

The Petitioner acknowledges that in addition to the conditions set forth in this petition and in the Zoning Ordinance, development requirements imposed by other City ordinances, construction standards, and design manuals do exist, are not waived or modified by the rezoning approval, and may be applicable to the proposed development. These development requirements include the regulation of streets, sidewalks, trees, and storm water. Where the conditions set forth in this Rezoning Plan conflict with other City development requirements, the stricter condition **or requirement shall apply**.

Comments for this rezoning:

No Comment from John Geer - Erosion Control

Per Tom Ferguson - City Engineering – Please remove Note -10.

(No need to specify type of BMP to be used at the rezoning stage. BMP design shall be governed by the Charlotte-Mecklenburg BMP Design Manual, not the NCDWQ Manual. Redevelopment sites, such as proposed with petition 2013-043 do not require natural area preservation, therefore PCCO requirements will consist of only the "stormwater controls" portion of the ordinance anyway.)
