

Petition No: 2013-065

RECOMMENDATION

We have the following comments that are critical to CMS' support of this petition:

Adequacy of existing school capacity in this area is a significant problem. We are particularly concerned about rezoning cases where school utilization exceeds 100% since the proposed development will exacerbate this situation. Approval of this petition will increase overcrowding and/or reliance upon mobile classrooms at the schools listed below.

***There is no significant impact from the proposed development on the schools listed below.**

CMS recommends the petitioner schedule a meeting with staff to discuss any opportunities that the petitioner/developer may propose to improve the adequacy of school capacity in the immediate area of the proposed development.

TOTAL IMPACT FROM PROPOSED DEVELOPMENT

Proposed Housing Units: 22 townhome units under UR-2 (CD)

CMS Planning Area: 3

Average Student Yield per Unit: 00417

This development will not add students to the schools in this area.

The following data is as of 20th Day of the 2012-13 school year.

<i>Schools Affected</i>	<i>20th Day, 2012-13 Enrollment (non-ec)</i>	<i>Total Classroom Teachers</i>	<i>Building Classrooms/ Teacher Stations</i>	<i>20th Day, 2012-13 Building Utilization (Without Mobiles)</i>	<i>Building Classroom/ Adjusted Capacity (Without Mobiles)</i>	<i>Additional Students As a result of this development</i>	<i>Utilization As of result of this development (Without Mobiles)</i>
DILWORTH ES	538	28	28	100%	579	0	100%
ALEXANDER GRAHAM MS	1434	72.5	65	112%	1671	0	112%
MYERS PARK HS	2755	137.5	127	108%	3855	0	108%

INCREMENTAL IMPACT FROM PROPOSED DEVELOPMENT*

Existing number of housing units allowed: permits residential dwellings at a maximum 22 units per acre under B-2 and 22 units per acre under O-2 zoning. Site would net one dwelling unit in the existing 0.21 acres under R-5 zoning. (*Residential unit type not specified and based on worst-case scenario*).

Number of students potentially generated under current zoning: 33 (23 elementary, 6 middle and 4 high)

The development allowed under the existing zoning would generate 33 students, while the development allowed under the proposed zoning will produce zero (0) students. Therefore, the net change in the number of students generated from existing zoning to proposed zoning is 33 students.

As requested, we are also providing information regarding the difference in the number of potential students from the existing zoning to the proposed zoning. Please note that this method of determining potential numbers of students from an area underestimates the number of students CMS may gain from the new development.
