

COMMUNITY MEETING FORM
PETITION NUMBER 2013-066
David Weekley Homes- Sharon View Rd.

Date of original contact: August 8, 2013

Persons and Organizations contacted with date and explanation of how contacted:

City supplied list was used to contact interested parties via first class US mail. Each name on the City provided lists was sent a letter with approximately 210 letters mailed. Both the mailing list and invitation letter are attached.

Date, time and location of meeting: August 19, 2013
6:30 p.m.
Sharon Presbyterian Church
Charlotte, North Carolina

Persons in attendance at meeting: Attendance was taken with 35 persons signing the Sign-in Sheet (see attached).

Mark Gibbs and Walter Fields attended the meeting on behalf of the Petitioner.

Summary of issues discussed and changes made as a result of the meeting:

Mr. Fields opened the presentation with a description of the site and the proposed development as well as an overview of the rezoning process. Mr. Gibbs introduced David Weekley Homes and describes how this site would be developed. It was explained that the density of the proposed development is actually lower than most of the other townhome communities along Sharon View. There were numerous questions about the site plan, traffic and sight distance and the project edges. Residents of the adjoining South Hill townhome community asked questions about how the new homes- both single family detached and town homes- would relate to their homes. The Petitioner presented building designs that, although not part of what had been submitted to the City, would be presented at the public hearing and would be added to the rezoning plan. There was some discussion about the road improvements that would be installed but no real question about the proposed use or the scale of the development.

A number of site plan modifications have been made to the site plan as a result of review comments from staff agencies but no changes have been made as a direct result of the community meeting. However, the petitioner, in response to a question from the meeting, is doing additional research about the edge relationship between the site and some of the South Hill residences.
