**Recommendations and/or Ordinance Requirement Reminders**

Storm Water Services

The requirements of the post-construction storm water ordinance for the City of Charlotte should be applied to the proposed rezoning. More detailed information regarding ordinance requirements is available at the following website:

<http://charmeck.org/stormwater/regulations/Pages/Post-ConstructionStormWaterOrdinances.aspx> and click on City of Charlotte.

**Impaired Streams:**

The property represented in this rezoning drains to surface waters listed on North Carolinas Department of Natural Resources 303(d) list of impaired streams. McAlpine Creek is listed for ecological/biological integrity of benthos, fecal coliform, and turbidity due to pollution discharges. Sixmile Creek is listed for ecological/biological integrity of fish due to pollution discharges. By properly controlling pollutants both during and after construction you can help restore these surface waters. More information on North
