From: Ashley Botkin, Engineering Land Development
Date: May 23, 2014
Rezoning Petition #: 2014-045 (revised May 13, 2014)

Detailed construction plans for the proposed site development are to be submitted for review and approval to the City of Charlotte's Land Development Division **after land entitlement (approved rezoning)**. Staff from City Land Development, Charlotte DOT, and the Planning Department review and inspect development projects in order to ensure compliance with pertinent City ordinances and standards. Please note Building Permit applications can be submitted concurrently to Mecklenburg County Code Enforcement and permit issuance will be conditioned upon the City of Charlotte's plan approval as required. Additional information may be found at our website: <http://development.charmeck.org>.

The Petitioner acknowledges that in addition to the conditions set forth in this petition and in the Zoning Ordinance, development requirements imposed by other City ordinances, construction standards, and design manuals do exist, are not waived or modified by the rezoning approval, and may be applicable to the proposed development. These development requirements include the regulation of streets, sidewalks, trees, and storm water. Where the conditions set forth in this Rezoning Plan conflict with other City development requirements, the stricter condition or requirement shall apply.

Comments for this rezoning:

Tom Ferguson comments:

Please revise Note-7b to read as follows: "PCCO - The site shall comply with the Charlotte City Council approved and adopted Post Construction Controls Ordinance."

In the enlarged site plan detail in the lower right corner of Sheet RZ.3, please delete the note "AREA SUBJECT TO PCCO STORMWATER REGULATIONS".

(As noted in the April 30 email issued by Storm Water Services, standard provisions of Post Construction Controls Ordinance applicability will be determined upon submittal of full site plans for permitting and cannot be pre-determined via rezoning process.)
