**Attachments:** Waiting Pad Detail

**I. SUMMARY REMARKS:**

The Petitioner is requested to provide and construct a bench pad for a bus stop along South Boulevard. The current bus stop location may move slightly to accommodate proposed driveways. Ideally, the stop should be located close to internal sidewalk connections between South Boulevard and the development's commercial anchor, such as a large grocery store.

Below is an image of the standard detail (60.02A) for the requested bus stop bench pad. The site plan may either show the conceptual location of the improved bus stop on South Boulevard, or alternatively, include a development note to locate the bus stop pad during the development review and permitting process.

Please contact me if there are any questions related to this request. Thank you.
