### I. SUMMARY REMARKS:

The petitioner is requested to retain the existing bus shelter on Kings Drive. The bus shelter is an iconic streetscape feature within the Midtown area. The shelter panels incorporate art celebrating the history of the Cherry Community. Below are photos of the existing bus shelter.

The site plan should include a transportation, streetscape, or transit section note that says the development will retain the shelter along Kings Drive. Please contact me if there are any questions relative to this request. Thank you.
