Comments:

In relation to the parcels under review, Charlotte Water has water system availability via the existing 8-inch and 6-inch water mains along North Brevard Street and the existing 6-inch water main along East 22nd Street.

In relation to the parcels under review, Charlotte Water has sewer system availability via the existing 8-inch gravity sewer main along North Brevard Street.

This sheet indicates the findings of a cursory review of Utilities System Information for the presence or absence of public water or wastewater infrastructure only. It does not imply available capacity in lines, pump stations, or treatment facilities.
