MEETING SUMMARY – PETITION No. 2015-032 - SITE F

Overview of Petitioner's presentation:

This rezoning is one of five rezoning requests the petitioner is requesting for the Tall Oaks Redevelopment in the Cherry Community. There was an overall presentation of the entire development plan, then each site was presented in more detail (see **Exhibit D** for presentation boards and **Exhibit E** for the handouts provided at the meeting) with a question & answer and feedback session for each rezoning request, and a review session at the end for additional questions/comments for all sites.

Introduction

Sylvia Bittle-Patton opened the Meeting
Invocation by Doris Dennis

A. Fulton Meachem Jr. - CEO & President of Charlotte Housing Authority
Mr. Meachem welcomed the Cherry community members attending and introduced himself and the project representatives.

Mr. Meachem began the presentation to discuss the CHA Tall Oaks Redevelopment and each site:

The CHA has been here before to get your input, and with the community's input, the project team has been able to get better product. The development is targeting the working income groups.

Mr. Meachem made reference to a recent newspaper article regarding the project and stated:

What you saw in paper was only an excerpt of the project that does not represent all the changes that have been worked out recently. So we are going to talk through all that with you tonight and explain what is going on. The CHA wants to make sure that the residents in the current 50 public housing units have an opportunity to come back and through this process we are making sure that happens. But the development replacing the current units will not be public housing at all. One of the key differences between what we have right now and what we are going to be building is a work requirement. But we will be wrapping around supportive services to ensure they have the ability move back and actually go to work, and we will provide brand new housing. Daniel McNamee of the design team will go through the design in more detail. I will now turn it over to Daniel to go through each of those petitions separately so you can ask questions regarding each.

Daniel McNamee then provided an overview of each Rezoning site. He presented a map of the scattered sites in the Neighborhood, Site A, Petition no. 2015-027, on Cherry Street and E. 1st St., by the Metropolitan, and the scattered sites (Sites B-F) in the neighborhood. Site B is Petition no. 2015-028; Site C is Petition no. 2015-029; Site D is Petition no. 2015-030; and Site F is Petition no. 2015-032. For each of the sites, Daniel showed updates of the design, comparing with the drawings presented with those presented at the previous Petitioner's public meeting, held on January 27, 2015.

Overview of Petition # 2015-032 – Site F

Daniel McNamee presented the development plan for Site F, a quad building. We are petitioning to rezone this site from R-12 MF to R-8. We are petitioning to downzone this site to allow the quad to be built here. The previous design comments for this site were based on residential character. Here we have sketches of adjacent houses and elevations. This concludes the digital presentation.

Questions & Comments for Petition # 2015-032 – Site F

Q – Who is paying for this?

A - CHA

Q - And who funds the CHA?

A – The Federal Government, Housing and Urban Development.

Q - If you park on street on Luther, it becomes a one way street, you won't be able to drive through it.

A – Everyone has their own preferences, but parking on street slows traffic down. We are adding additional parking, off street parking, but the community at large currently has lots of cars on street, this is nothing new.

Q - What is driving this number of parking spaces?

A - We are required to have 1 parking space per units, and for accessible spots we have the mandatory 10% parking. Our parking numbers that we are putting in is per the ordinance, from the feedback from the community, we increased where we could. We can't have 2 parking spaces per family, that's unfeasible, however where we could we increased it because we knew that was a concern.

Q - Will there be assigned parking per units?

A – No.

Q – So, if someone wants to park their cars in 3 spots it would be ok?

A - That's where property management comes in, and that's where they will step in to assure the requirements are being met. But we are following the requirements for the rezoning we are requesting.

Q - This is complete contrast to what the Midtown Morehead Cherry Area Plan laid out and spent public money on.

A - The plan also said we need more affordable housing.

Q – But this is too much.

A – We aren't trying to hide the fact that were increasing the density, that's why we're here and showing the community and getting feedback.

Comment - I'd like to make a point that I'm embarrassed. I'm embarrassed by some of the comments I'm hearing from my neighbors. Realistically what they are proposing won't increase parking and traffic issues, apart from Site A which I will fight to the bitter end. The rest of the sites are ok.

Comment – I'd like to thank you all for the numerous meetings you've had in the neighborhood. If someone wasn't notified of the meeting, they need to ask themselves why because we've had many meetings with lots of residents.

Comment - I want to applaud you all on the improvements on the architecture.

A – Thank you for your feedback, the process over the past 6 months, getting feedback and changing it has really helped us create a better products.

Closing Session with General Questions & Comments for Rezoning Sites

Q – The playground on Site B, is that required? We already have a neighborhood park for all the children. Do we need to have 2 parks?

A - Yes it's a requirement for the tax credit submittal.

Q - My biggest concern is the 200 unit on A. it's a monstrosity.

A – This concept we have here is a development that works financially. We can only do so much on A2-F, and we have this A site, which we have a need in Charlotte for affordable workforce housing, we gave it more of a buffer and scaled this site to what we could to provide a housing type and model that's needed in Charlotte. We want to building affordable and workforce housing and that's what we've created over the past few months with input for the city. We are a public body not a developer, we are a part of the community and you can contact us to help make this a better community. Any process will have some give and take and we've come a long way to make this a better program.

Q - Quick question on Site A2—what's going to be there?

A - Townhomes and units similar to the Site B buildings. The townhomes will be similar to the ones on Site D.

Q - I don't like site A at all, I have a disdain for it. Since each is an independent petition, if any aspect of those don't pass how will you proceed with the whole project?

A - We will most likely go through with all sites. For site A, if the numbers for affordable housing do not work for this site, most likely it would be market rate housing.

Q – So, no city money goes to fund the CHA?

A - No city money funds us, we are 100% funded by HUD.

Q – If the rezoning is successful you'd like to apply for funding from Housing Trust Fund from the City?

A - If awarded the tax credits, we can possibly get housing trust fund, we will apply for it.

Comment - You've reduced number of curb cuts on Luther, fear around density and affordability, the market doesn't indicate issues with current CHA, which is usually of lesser quality than what you're presenting today, this housing is a stone's throw from existing housing you have on Avant. I applaud you all for moving forward with this, when you look at urban context which people understand when they buy here, that density is going to continue to grow, people need to understand that density doesn't cause problems, it's the lack of attention to detail, poor design, things like street trees, on street parking and good design make density okay and not a problem. As someone with a lot of risk here in this neighborhood I applaud you for this design.

A. Fulton Meachem Jr. closed out the meeting and thanked the attendees.
