**Comments:**

In relation to the parcel under review, Charlotte Water has water system availability via the existing 6-inch water main along Faison Avenue and the existing 12-inch water main along North Davidson Street.

In relation to the parcels under review, Charlotte Water has sewer system availability via the existing 8-inch gravity sewer mains along Charles Avenue. Sewer is also available through the existing 10-inch gravity sewer main that runs through parcels on the South Side of Faison Avenue, including the parcel under review. .

This sheet indicates the findings of a cursory review of Utilities System Information for the presence or absence of public water or wastewater infrastructure only. It does not imply available capacity in lines, pump stations, or treatment facilities.
