**Re: Rezoning Petition 2015-093**

**Location:** 2.9 acres located on the south side of Drexel Place and north side of Woodlawn Rd near the intersection of Park Rd and Drexel Place and Park Rd and Woodlawn Rd.

Dear Ms. Duhaney:

Representatives of the Air Quality (MCAQ), Groundwater & Wastewater Services (MCGWS), Solid Waste (MCSW), Storm Water Services (MCSWS), and Water Quality (MCWQ) Programs of the Mecklenburg County Land Use and Environmental Services Agency (LUESA) have reviewed the above referenced rezoning petition.

**Programs with No Comment at this Time**

**Solid Waste**  
**Water Quality**

**Recommendations and/or Ordinance Requirement Reminders**

**Air Quality**

Development of this site may require submission of an asbestos Notification of Demolition and Renovation to MCAQ due to possible demolition or relocation of an existing structure. A letter of notification and the required forms have been mailed directly to the petitioner by MCAQ.

**Groundwater & Wastewater Services**

GWS records indicate contamination sites exist within 1,000 feet of the properties included in the petition. An established Area of Regulated Groundwater Usage (ARGU) as defined by the Mecklenburg County Groundwater Well Regulations extends 1,500 feet around the contamination sites. Municipally supplied water is available to these properties. In ARGU where municipally supplied water is available water supply wells for water supply, irrigation or open loop geothermal systems may not be permitted or constructed on or within 1,000 feet of contamination sites. Wells may be permitted with special construction and sampling requirements between 1,000 and 1,500 feet of contamination sites.
