

## Rezoning Transportation Analysis

**Updated:** 5/24/16

**Petition Number** 2015-113

**Location** 0.93 acres off S. Tryon St. between Cama St. and Peterson Dr.

**Staff Resource** Carlos Alzate [calzate@charlottenc.gov](mailto:calzate@charlottenc.gov) 704.432.0672

CDOT's Review of this rezoning petition is intended to ensure consistency with the Transportation Action Plan (TAP). The TAP seeks to ensure that Charlotte's transportation network supports current and future land uses and includes streets that provide safe and comfortable mobility for motorists, pedestrians, bicyclists, and transit users.

This document is primarily for communication to Planning Department staff to be used in the overall City staff analysis of the rezoning petition and includes information on trip generation, outstanding site plan concerns, and an overall summary of the case from a transportation perspective.

Based on our review of the petition, we offer the following information for your consideration.

### Transportation Summary

This site is located on a major thoroughfare between unsignalized intersections connecting to local streets. CDOT has not identified any negative impacts to the transportation facilities in the area due to the trips generated by the proposed use. However, the site plan does not comply with the future cross section envisioned for S. Tryon in the Scaleybark Transit Station Area Plan.

### Trip Generation

|              | Existing Zoning |             |                                     |
|--------------|-----------------|-------------|-------------------------------------|
| Scenario     | Land Use        | Intensity   | Trip Generation (Vehicle trips/day) |
| Existing Use | Office          | 792 sf      | 33                                  |
| Entitlement  | Single Family   | 7 dwellings | 70                                  |

|                | Proposed Zoning |           |                                     |
|----------------|-----------------|-----------|-------------------------------------|
| Site Plan Date | Land Use        | Intensity | Trip Generation (Vehicle trips/day) |
| 2/17/15        | Office          | 2710 sf   | 85                                  |
| 1/07/15        | No Change       | -         | -                                   |

## Resolved Issues

N/A

## Outstanding Issues

1. The petitioner should revise the site plan to show right of way dedication in fee simple of 62 feet from existing centerline along S. Tryon to match the Scaleybark Transit Station Area Plan. A note specifying dedication and fee simple conveyance to the City/NCDOT is requested prior to plat approval.
2. The current site plan shows construction of new 6' sidewalk. CDOT recommends that this sidewalk is shown to be constructed with back of sidewalk located 54' from existing centerline of S. Tryon and further that the sidewalk width should be 8' to conform to the future location as identified in the Scaleybark Transit Station Area Plan.

## Advisory Information

The following are requirements of the developer that must be satisfied prior to driveway permit approval. We recommend that the petitioner reflect these on the rezoning plan as-appropriate.

1. The setback for this district is measured from the back of the existing or future curbline as determined by CDOT and Planning during the permitting process.
2. According to the City of Charlotte's Driveway Regulations, CDOT has the authority to regulate/approve all private street/driveway and public street connections to the right-of-way of a street under the regulatory jurisdiction of the City of Charlotte.
3. Adequate sight triangles must be reserved at the existing/proposed street entrance(s). Two 35' x 35' sight triangles are required for the entrance(s) to meet requirements. All proposed trees, berms, walls, fences, and/or identification signs must not interfere with sight distance at the entrance(s). Such items should be identified on the site plan.
4. The proposed driveway connection will require a driveway permit(s) to be submitted to CDOT and the North Carolina Department of Transportation for review and approval. The exact driveway location and type/width of the driveways will be determined by CDOT during the driveway permit process. The locations of the driveway shown on the site plan are subject to change in order to align with driveway(s) on the opposite side of the street and comply with City Driveway Regulations and the City Tree Ordinance.
5. All proposed commercial driveway connections to a future public street will require a driveway permit to be submitted to CDOT for review and approval.
6. Any fence or wall constructed along or adjacent to any sidewalk or street right-of-way requires a certificate issued by CDOT.
7. A Right-of-Way Encroachment Agreement is required for the installation of any non-standard item(s) (irrigation systems, decorative concrete pavement, brick pavers, etc.) within a

proposed/existing City maintained street right-of-way by a private individual, group, business, or homeowner's/business association. An encroachment agreement must be approved by CDOT prior to the construction/installation of the non-standard item(s). Contact CDOT for additional information concerning cost, submittal, and liability insurance coverage requirements.
