**Comments:** All of carts would need to be placed on the proposed private street on garbage/recycling collection day as the arm that picks up the carts for collection is located on the right side of the truck.

The truck will enter the site and have to turn around in the fire truck turnaround area and then collect the carts as driving out of the community.

We would request no on street parking on collection day.

**Other comments:** If there are any questions, please contact Solid Waste Administration, 704-432-3537.
