I. SUMMARY REMARKS:

The Petitioner is requested to provide multiple enhanced bus stops along West Boulevard and Dixie Road. If desiring an internal bus stop, the Petitioner needs to show a proposed shelter and waiting pad for future service along new internal streets easily accessed from West Boulevard. The bus stop locations are flexible, but should be located where accessible pedestrian routes lead to primary entrances of major land use destinations.

In lieu of showing the bus stop pad locations on the site plan, the Petitioner may add a development note stating:

“The Petitioner will provide bus passenger waiting pads along West Boulevard and Dixie River Road for use by CATS. The exact location of the proposed passenger waiting pads shall be determined during the Urban Review and approval process.”

Please contact me if there are any questions relative to this request. Thank you.
