SUMMARY OF ISSUES DISCUSSED AT MEETING:

I. Overview of Petitioner's Presentation.

Introduction and Overview of Development Plan.

Mr. Brown welcomed attendees to the community meeting and provided a broad overview on the rezoning process. Mr. Crocker presented the vision for the districts and the overall project. Attendees were invited to participate in question and answer sessions for the following focus areas; Land Ownership, Design, Environment, Transportation and Public Facilities

II. Summary of Questions/Comments and Responses:

The following is a general summary of topics, questions and comments that were discussed during the breakout sessions:

- Overall, some residents asked questions to understand how their homes might be impacted as development occurs around them.
- Residents were interested in learning more about airport expansion plans, noise impacts and how new development will impact the natural environment and animal habitat within their broader community.
- Others wanted to get more information on how Brown's Cove and Beaver Dam Creek would be protected and what measures would be taken for water quality monitoring as well as access to water, sewer and natural gas for existing lake front homes.
- Some residents wanted to ensure that the development teams are working with other local agencies and departments such as the River keeper, Parks & Recreation or the utilities departments.
- Residents from the Sadler Road area inquired about annexation, impacts to their specific road and the potential for reconstruction.
- Some individuals inquired about access to the proposed trail system.
- A number of residents expressed interest in more parks with both formal and natural areas. There were many positive comments made related to the proposed river front amenity area and the network of open spaces.
- A breakout session related the road improvements that go along with Phase I resulted in some questions. Some residents expressed a preference to see road construction occur all at once as opposed to 2 lanes and then another 2 lanes.
- There was some discussion regarding improving the I-485/West Blvd interchange along with new West Blvd extension to Dixie River Road (new intersection) as well as the creation of a new intersection with the realignment of Garrison Road to connect with West Blvd extension at a new intersection.
- When asked about West Blvd east of I-485, it was explained that West Blvd may be relocated south to make room for the new N/S runway at the airport and that developers are working with the airport regarding the possible realignment in conjunction with a future modified interchange.
- There were some questions on street cross-sections and residents were pleased to learn about multi-modal bike lanes that are planned.
- It was explained that the long-term plan is to put the main bones of the street network in place and provide better connections and options to travel North/South and East/West.

CHANGES MADE TO PETITION AS A RESULT OF THE MEETING:

There have been numerous changes and enhancements to the rezoning plan as a result of Planning Department comments and input received from residents and stakeholders. These have included: a more detailed streetscape and roadway profile system; enhancements to the open space and planned trail system; sensitivity to the environmental concerns expressed with greater water quality features; expanded discussions regarding roadway planning aspects; among other adjustments/enhancements.

RIVER DISTRICT VISION

"River District is a master planned community that embraces its natural features, resources, preservation areas and open space as the principle organizing element in its neighborhoods, mixed use town center, employment, gateway and transitional districts. River District will be a vibrant and diverse place that fosters unprecedented economic vitality, diverse residential opportunities and a thriving built environment amidst hundreds of acres of preserved open space. The Districts will evolve over time, while remaining connected through an extensive network of parks/trails, open space and greenway linkages as well as a collection of multi-modal streets that provide a range of transportation opportunities. Unlike anywhere else in Charlotte, the unique location captures the natural beauty that extends from the Catawba River while maximizing the convenience of proximity to the global serving Charlotte Douglas International Airport."

Representatives of the Petitioner look forward to discussing this exciting rezoning proposal with you at the Community Meeting. In the meantime, should you have questions about this matter, you may call Jeff Brown (704-331-1144), Bridget Dixon (704-331-2379) or Keith MacVean (704-331-3531). Thank you.
