Attachments: Bus stop pad detail

I. SUMMARY REMARKS:

CATS recently redesigned area bus routes to utilize new street network. Parking spaces and shelter pads are no longer needed on site.

In lieu of two internal shelter pads, the Petitioner is requested to construct only one external waiting pad on Steele Creek Road. The recommended new location is before the new right turn lane onto Walker Branch Drive.

Below is an image of the standard detail (60.01B) for the requested bus stop pad. Permanent easement is requested, where dimensions exceed existing or proposed right-of-way limits.

Please contact me if there are any questions related to this request. Thank you.
