STATEMENT OF CONSISTENCY

The Zoning Committee found this petition to be inconsistent with the Dixie Berryhill Strategic Plan, based on information from the staff analysis and the public hearing, and because:

• The plan recommends single family residential land uses, at up to four dwelling units per acre.

However, this petition was found to be reasonable and in the public interest, based on information from the staff analysis and the public hearing, and because:

• The Dixie Berryhill Strategic Plan recommends single family residential at up to four dwelling units per acre for the subject property; and
• While the proposed use is not residential, it will allow the reuse of a small lot that is situated between a recreation vehicle sales facility and Interstate 85; and
• The size and location of the site limit the intensity and impact of the development on the residential properties in the immediate area and therefore eliminates the need for a conditional site plan;

By a 6-0 vote of the Zoning Committee (motion by Wiggins seconded by Fryday)
