- General Provisions:
 - Site Location. These Development Standards and Illustrative Site Plan set forth on Sheet RZ-1 form this rezoning plan (collectively referred to as the "Rezoning Plan") associated with the Rezoning Petition filed by Fenton Place, LLC. ("Petitioner") to accommodate the re-use of the two existing buildings located on the Site for retail, personal service uses and office uses on an approximately .19 acre site located at 515 and 517 Fenton Place (the "Site").
 - Zoning Districts/Ordinance. Development of the Site will be governed by the Rezoning Plan, the applicable provisions of the City of Charlotte Zoning Ordinance (the "Ordinance"). Unless the Rezoning Plan establishes more stringent standards, the regulations established under the Ordinance for the MUDD-0 zoning classification shall govern all development taking place on the Site, subject to the Optional Provisions provided below.
 - Graphics and Alterations. The schematic depictions of the uses, parking areas, sidewalks, structures and buildings, driveways, and other development matters and site elements (collectively the "Development/Site Elements") set forth on the Rezoning Plan should be reviewed in conjunction with the provisions of these Development Standards. The layout, locations, sizes, and formulations of the Development/Site Elements depicted on the Rezoning Plan are graphic representations of the Development/Site Elements proposed. Changes to the Rezoning Plan not anticipated by the Rezoning Plan will be reviewed and approved as allowed by Section 6.207 of the Ordinance. Since the project has not undergone the final design development and construction phases, it is intended that this Rezoning Plan provide for flexibility in allowing some alterations or modifications from the graphic representations of the Development/Site Elements. Therefore, there may be instances where minor modifications will be allowed without requiring the Administrative Amendment Process per Section 6.207 of the Ordinance. These instances would include changes to graphics if they are:
 - minor and don't materially change the overall design intent depicted on the Rezoning Plan.

The Planning Director will determine if such minor modifications are allowed per this amended process, and if it is determined that the alteration does not meet the criteria described above, the Petitioner shall then follow the Administrative Amendment Process per Section 6.207 of the Ordinance; in each instance, however, subject to the Petitioner's appeal rights set forth in the Ordinance.

d. Number of Buildings Principal and Accessory. The total number of principal buildings to be developed on the Site will be limited to two (2). Accessory buildings and structures located on the Site shall not be considered in any limitation on the number of buildings on the Site. - The two (2) existing buildings located on the Site will remain. Repair and renovations to the existing building will be allowed.
