# ADMINISTRATIVE AMENDMENT

RZ1

This Administrative Amendment seeks to modify certain provisions of a conditional rezoning plan related to Rezoning Petition 2002-074. If approved, the Conceptual Site Plan accompanying this Administrative Amendment will replace the site plan submitted with Rezoning Petition 2002-074. Additionally, conceptual architectural elevations are being provided as part of this Administrative Amendment. Finally, this Administrative Amendment will revise some of the Development Standards imposed by Rezoning Petition 2002-074. The Development Standards set forth below are identical to the Development Standards submitted and approved in Rezoning Petition 2002-074 except as indicated by an underline or strike-through, which indicate an addition or deletion to the original standards, respectively.

A copy of the rezoning plan related to Rezoning Petition 2002-074 is attached as Exhibit A for reference.

#### PHASING OF DEVELOPMENT (PARCELS A AND B)

Parcel A was previously a part of Zoning Petition #98-125, which provides for development of up to 2,665,000 square feet on both sides of West Tyvola Road. Of the maximum square footage allowed by Petition #98-125, 765,000 square feet is hereby assigned to Parcel A leaving 1,900,000 square feet for the remaining land covered by Petition #98-125. Under the present Zoning petition #02-074, an additional 600,000 square feet is permitted on Parcels A and B such that Parcels A and B have had a combined maximum building area (exclusive of parking structures) of 1,365,000 square feet. Hence, following Zoning Petition #98-125 1,900,000 square feet may could be developed on the remaining land covered by Petition #98-125 (hereinafter referred to as "Lakepointe Corporate Center North") and 1,365,000 square feet may be developed on Parcels A and B (hereinafter referred to as "Lakepointe Corporate Center South"). Thus, in the aggregate, a total of 3,265,000 is allowed on Lakepointe Corporate Center North and Lakepointe Corporate Center South.

Petitioner agrees to limit development within Lakepointe Corporate Center South to 1,000,000 (exclusive of parking structures) square feet. As provided below, Petitioner reserves the right to transfer the additional 365,000 square foot of developable square footage to Lakepointe Corporate Center North as contemplated by the previous rezoning affecting Lakepointe Corporate Center North and Lakepointe Corporate Center South.

The owners of Lakepointe Corporate Center South agree to develop Lakepointe Corporate Center South in accordance with the phase schedule set forth below.

#### Phase I

Up to a combined 500,000 square feet of gross floor area may be developed on Lakepointe Corporate Center North and Lakepointe Corporate Center South at any time with no additional road improvements.

#### Phase II

An additional combined 784,000 square feet gross floor area may be developed on Lakepointe Corporate Center North and Lakepointe Corporate Center South at any time after the following transportation improvements have been completed:

- Installation of traffic signal at the intersection of the Billy Graham Parkway south-bound ramp with West Tyvola Road.
- Installation of turn lanes at all three access points from Lakepointe Corporate Center North and Lakepointe Corporate Center South onto West Tyvola Road. Storage lanes as detailed in the Petitioner's October 1996 Traffic Access Analysis prepared by Kublins Traffic Consulting, Inc. which was part of Rezoning Petition #98-125.
- Installation of traffic signals at the site's eastern and western access points onto West Tyvola Road, as generally depicted on the technical data sheet in Petition #98-125, and in acceptance with CDOT and NCDOT requirements and upon meeting signal warrants.

While the additional development approved for Phase II may be constructed contemporaneously with the required transportation improvements, no certificates of occupancy may be issued for any of this additional development until the improvements have been completed.

#### Phase III

An additional combined 1,381,000 square feet of gross floor area may be developed on Lakepointe Corporate Center North and Lakepointe Corporate Center South at any time after the transportation improvements required for Phase II have been satisfied and the following additional transportation improvements have been completed.

While the additional development approved for Phase IV may be constructed contemporaneously with the required transportation improvements, no certificates of occupancy may be issued for any of this additional development until the improvements have been completed.

#### Phase V

An additional 175,000 square feet of gross floor area may be developed on Lakepointe Corporate Center South at any time after the transportation improvements required for Phase II, III and IV have been satisfied and the following additional transportation improvements have been completed.:

- Modify Billy Graham Parkway ("BGP")/Tyvola Road interchange to provide west-bound Tyvola Road dual left-turn lanes with 475 feet of storage at south-bound BGP ramps intersection (includes commensurate south bound on-ramp modifications/extension, and north-bound off ramp to west bound Tyvola Road ramp modifications, construction of a median and installation of a traffic signal).

- Addition of eastbound left-turn and right-turn lanes on West Boulevard and BGP, unless intersection has been converted to a grade separated interchange.

While the additional development approved for Phase VI may be constructed contemporaneously with the required transportation improvement, no certificates of occupancy may be issued for any of this additional development until the improvements have been completed.

Plans for all signal installations and roadway improvements described above must be approved in advance by NCDOT and CDOT.

Any Petitioner/Developer transportation improvement herein outlined for Parcels A and B shall not be required if the transportation improvement has been otherwise funded and/or completed by applicable local state or federal agency responsible for such improvements.
