

To: Tammie Keplinger, CMPC
From: Ashley Botkin, Engineering Land Development
Date: January 26, 2018
Rezoning Petition #: 2017-179 Revised

Detailed construction plans for the proposed site development are to be submitted for review and approval to the City of Charlotte's Land Development Division **after land entitlement (approved rezoning)**. Staff from City Land Development, Charlotte DOT, and the Planning Department review and inspect development projects in order to ensure compliance with pertinent City ordinances and standards. Please note Building Permit applications can be submitted concurrently to Mecklenburg County Code Enforcement and permit issuance will be conditioned upon the City of Charlotte's plan approval as required. Additional information may be found at our website: <http://development.charmeck.org>.

The Petitioner acknowledges that in addition to the conditions set forth in this petition and in the Zoning Ordinance, development requirements imposed by other City ordinances, construction standards, and design manuals do exist, are not waived or modified by the rezoning approval, and may be applicable to the proposed development. These development requirements include the regulation of streets, sidewalks, trees, and storm water. Where the conditions set forth in this Rezoning Plan conflict with other City development requirements, the stricter condition or requirement shall apply.

Comments for this rezoning:

Tom Ferguson (Engineering) – Please correct stream buffer labels to specify 50' Undisturbed PCSO buffer.

Please also add the following note under the ENVIRONMENTAL FEATURES heading: *For adjoining parcels receiving stormwater discharge from proposed BMP(s), the Petitioner shall analyze adequacy of the existing stormwater conveyance on the adjoining parcels. If the existing stormwater conveyance on the adjoining parcels is found to be inadequate, the Petitioner shall make a good faith effort with the property owner(s) to improve the stormwater conveyance or otherwise mitigate the stormwater discharge onto the adjoining parcels.*

Peter Grisewood (Urban Forestry) – no comments

Jay Wilson (Erosion Control) –
