PETITIONER	Harrison Tucker and John Perovich

**ZONING COMMITTEE
ACTION/ STATEMENT
OF CONSISTENCY**

The Zoning Committee voted 7-0 to recommend APPROVAL of this petition and adopt the consistency statement as follows:

This petition is found to be consistent with the *Parkwood Transit Station Area Plan*, based on the information from the staff analysis and the public hearing and because:

- The plan recommends transit oriented development.

Therefore, we find this petition to be reasonable and in the public interest based on information from the staff analysis and the public hearing and because:

- The subject site is within ¼ -mile walk of the Parkwood Street Station on the LYNX Blue Line.
- The proposed transit oriented development zoning is more consistent with the vision for the area than the current industrial zoning.
- Use of conventional TOD-M (transit oriented development – mixed-use) zoning applies standards and regulations to create the desired form and intensity of transit supportive development, and a conditional rezoning is not necessary.
- TOD (transit oriented development) standards include requirements for appropriate streetscape treatment, building setbacks, street-facing building walls, entrances, and screening.
