RECOMMENDATION

Adequacy of existing school capacity in this area is a significant problem. We are particularly concerned about rezoning cases where school utilization exceeds 100% since the proposed development may exacerbate those situations. Approval of this petition may increase overcrowding and/or reliance upon mobile classrooms at the school listed above.

The total estimated capital cost of providing the additional school capacity for this new development is \$47,000 calculated as follows:

Elementary School: 1x \$20,000 = \$20,000

High School: 1x \$27,000 = \$27,000

CMS recommends that the petitioner/developer schedule a meeting with staff to discuss mitigation of the cost to improve the adequacy of school capacity at the potentially affected school.
