STAFF RECOMMENDATION Staff recommends approval of this petition upon resolution of outstanding issues related to building and site design, transportation, and environment.

Plan Consistency
The petition is consistent with the residential land use of the *Midtown Morehead Cherry Area Plan* which recommends six dwelling units per acre.

Rationale for Recommendation

- The proposed development on an infill lot located within the established Cherry neighborhood.
- The property has limited street frontage and is constrained by a SWIM buffer and sanitary sewer easement.
- The use of the UR-2(CD) (urban residential, conditional) allows the property to be developed in a pattern and at a density similar to

the existing neighborhood, despite the property's unique circumstances.

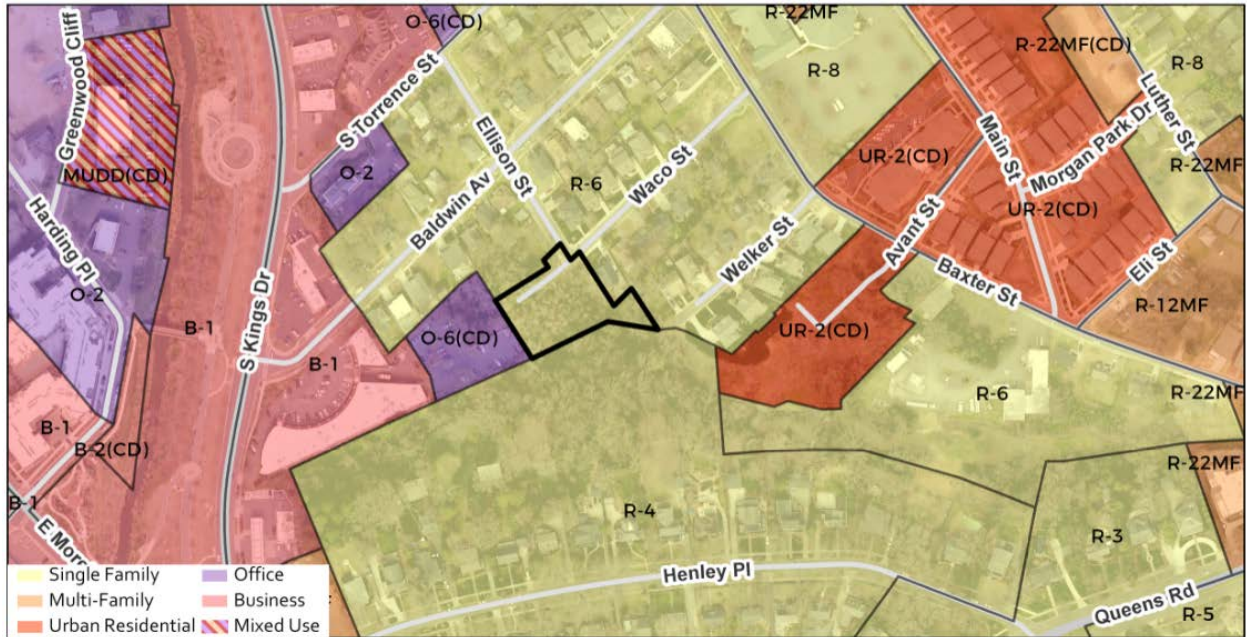

PLANNING STAFF REVIEW

Proposed Request Details

The site plan accompanying this petition contains the following provisions:

- Total of four single family detached dwellings at 5.4 units per acre.
- 14-foot building setback for the proposed structures off of the new private drive and a minimum 20 foot garage setback.
- Proposed 20-foot driveway to access new homes.
- Maximum building height of 40 feet and two stories.
- Five-foot sidewalk along one side of the new private drive.
- Building materials shall comprise a combination of brick, natural or synthetic stone, stucco, cementitious siding, fiber cement/hardiplank or other approved materials. Vinyl siding is prohibited, except vinyl is allowed on handrails, windows and door trim.
- Houses will have a front porch or stoop with a minimum depth of six feet.
- Front entry garage will be limited to a single car garage for lots 2, 3, and 4.
- Each structure will have a stone or masonry foundation.
- All transportation improvements will be approved and constructed before the site's first building certificate of occupancy is issued.

• **Public Plans and Policies**

- The *Midtown Morehead Cherry Area Plan* (2012) recommends residential housing up to six dwelling units per acre.

• **TRANSPORTATION CONSIDERATIONS**

- The site is located along local streets. The site commits to creating additional ADA (Americans with Disabilities) ramps. CDOT is requesting the petitioner install an eight-foot planting strip and six-foot sidewalk.
- See Outstanding Issues, Notes 3 and 4.
- **Vehicle Trip Generation:**
 Current Zoning:
 Existing Use: 0 trips per day (based on vacant land).
 Entitlement: 40 trips per day (based on four dwelling units).
 Proposed Zoning: 40 trips per day (based on four dwelling units).

DEPARTMENT COMMENTS (see full department reports online)

- **Charlotte Area Transit System:** No outstanding issues.
- **Charlotte Department of Housing and Neighborhood Services:** No outstanding issues.
- **Charlotte Fire Department:** No parking on streets less than 26 clear width.
- **Charlotte-Mecklenburg Schools:** No comments submitted.
- **Charlotte Water:** Charlotte Water has accessible water system infrastructure for the rezoning boundary via an existing 6-inch water distribution main located along Ellison Street and via an existing 2-inch water distribution main located along Welker Street. The proposed rezoning is located in an area that Charlotte Water has determined to have limited sanitary sewer system capacity. It is recommended that the applicant contact the Charlotte Water New Services for further information and to discuss options regarding sanitary sewer system capacity.
- **Engineering and Property Management:**
 - **Arborist:** No trees can be removed from the public right-of-way of any existing or newly created city maintained street without explicit authorization from the City Arborist or his designee. No trees can be planted in the right-of-way of any City maintained street (Waco Street) without explicit authorization from the City Arborist's office. Tree species must be approved before planting.
 - **Erosion Control:** Stream/wetland survey required prior to submission of civil site plan during the permitting phase.
 - **Land Development:** See Outstanding Issues, Note 5 and 6.
 - **Storm Water Services:** No outstanding issues.
 - **Urban Forestry:** See Outstanding Issues, Note 7.
- **Mecklenburg County Land Use and Environmental Services Agency:** No outstanding issues.

- **Mecklenburg County Parks and Recreation Department:** No outstanding issues.

OUTSTANDING ISSUESSite and Building Design

1. Show and label eight foot planting strip and six foot sidewalk along Ellison and Waco Street.
2. Remove notes "C and D" under Transportation section on the site plan.

Transportation

3. Revise the site plan and conditional note(s) to show eight-foot planting strip and six-foot sidewalk around the proposed private street.
4. Remove the note about the accessible ramp matching street context; the ramp type will be established during permitting.

Environment

5. Adjust limits of the 20-foot Storm Drainage Easement (SDE) to extend to the rear property line (see Deed Book 7876, Page 0973).
 6. Show and label 35-foot SWIM/PCSO Stream Buffer on rezoning plan and adjust development limits as necessary to comply with stream buffer requirements.
 7. Show tree save areas and calculations on site plan.
