Recommendations Concerning Storm Water: Charlotte-Mecklenburg Storm Water Services has temporary construction easements (TCE) and permanent storm drainage easements (SDE) on the parcels for this rezoning request. These easements can be found in map book 30527 pages 565-571. No buildings or structures are permitted over and across these easements. Please show the TCE and SDE limits on the rezoning site plan and adjust the site plan as necessary to meet the easement language agreements and requirements.
