I. SUMMARY REMARKS:

No requests for bus facilities as there are no bus routes on Old Statesville Road.

NC 115 for the Red Line Commuter Rail is the adopted 2030 Transit System Plan Locally Preference Alternative (LPA) for the North Corridor. CATS is evaluating other options on new corridors such as Light Rail and BRT, however the direction from the MTC is to carry all options to the end of the current study and to not make a LPA recommendation.
