

REQUEST Current Zoning: R-4 (single family residential) and I-1 (light industrial)
Proposed Zoning: I-2(CD) (general industrial, conditional)

LOCATION Approximately 35.91 acres located on the west side of Old Statesville Road, north of Hucks Road.
(Outside City Limits)

SUMMARY OF PETITION

The petition proposes to allow the construction of office/industrial/warehouse distribution uses on land that is partially developed with single family homes and the remainder vacant. The site is generally located on the west side of Old Statesville Road and approximately 1/2 mile south of Interstate 485.

COMMUNITY MEETING

Meeting is required and has been held. Report available online.
Number of people attending the Community Meeting: 8

**STAFF
RECOMMENDATION**

Staff recommends approval of the petition upon resolution of the outstanding issue relating to transportation.

Plan Consistency

The petition is inconsistent with the *Northlake Area Plan* recommendation for transit oriented uses for this site.

Rationale for Recommendation

- Before the commuter rail line was proposed, the adopted future land use was business park/industrial for this site and surrounding area.
- The adopted future land use recommendation for transit oriented uses was made with the assumption that the Red Line Commuter Rail would be a funded and active project.
- Properties to the west and south are currently developed with industrial/office/warehouse uses. The properties to the north, south, east and west adjacent to and across the street from this site are all zoned for industrial and business park uses.
- The proposed site plan is providing options for street extension westward from Statesville Road, by extension of the Hucks Road right-of-way along the southern edge of the property if possible, or by a separate connection point, which will support City Council's policy on connectivity.

The approval of this petition will revise the adopted future land use as specified by the *Northlake Area Plan*, from transit oriented uses to heavy industrial.

PLANNING STAFF REVIEW

- **Proposed Request Details**

The site plan accompanying this petition contains the following provisions:

- Up to 550,000 square feet of warehousing, warehouse distribution, manufacturing, office, and industrial uses as allowed in the I-2 (general industrial) zoning district. The plan shows two building/parking envelopes.
- Allows all uses in the I-1 (light industrial) zoning district in addition to the following uses allowed in the I-2 (general industrial) zoning district:
 - Government buildings up to 100,000 square feet
 - Recreation centers up to 30,000 square feet
 - Warehousing
 - Truck terminals
 - Contractor offices and accessory storage
 - Childcare centers, as an accessory use of structure
 - Manufacturing (heavy use) of: aircraft and parts, alcoholic beverages, concrete, gypsum and plaster products, construction and related machinery, electrical industrial apparatus, electrical distribution equipment, engines and turbines, fabricated metal products, farm and garden machinery, furniture and fixtures, glass and glassware, industrial machinery, motor vehicles and equipment, motorcycles and parts, refrigerator and service machinery, textile mill products, and other similar uses.

Proposes the following transportation commitments:

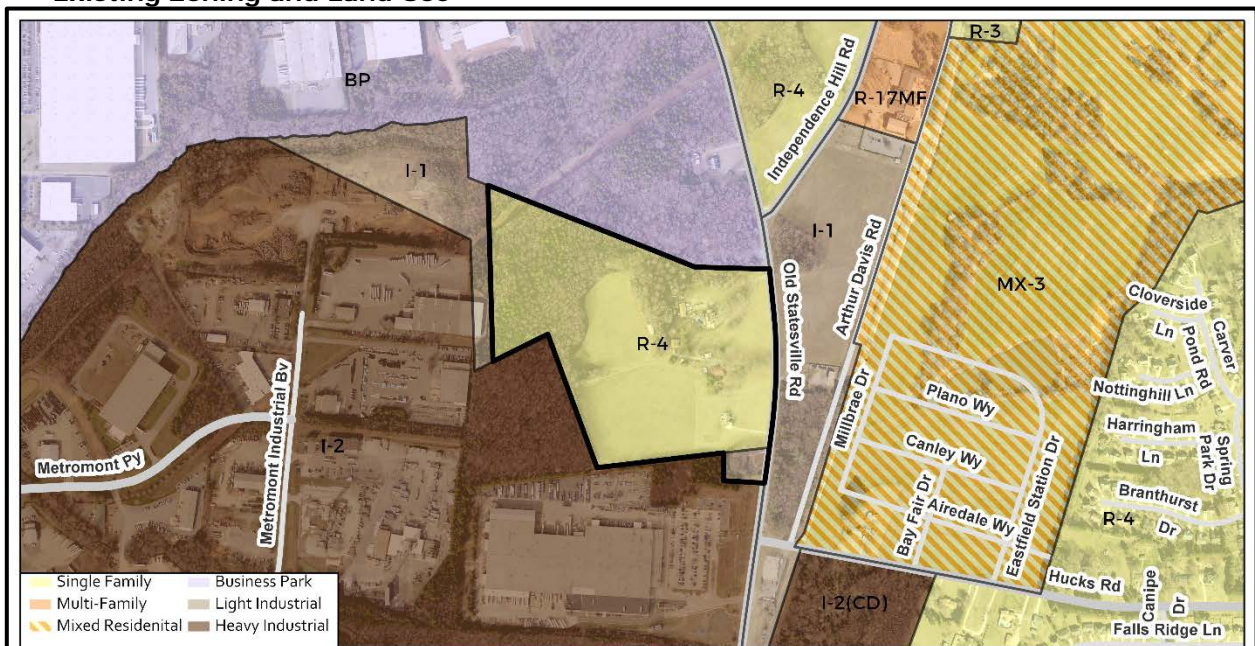

- ~~Access to the site from Old Statesville Road.~~ Option A Connection to Old Statesville Road with a 65-foot right-of-way to accommodate a local industrial street cross-section to be provided as shown on the rezoning plan, if Option B Connection/Hucks Road Extension noted below is unavailable.
- Option B Connection, Hucks Road Extension to Old Statesville Road and to the site as shown on the rezoning plan (to cross over the adjoining Carrier Parcel as defined below) with a 100-foot right-of-way to be provided in lieu of the Option A Connection, subject to the following:
 - Petitioner will use diligent good faith efforts to work with the owner(s) of Tax Parcel 025-27-103 located adjacent and to the south of the site (the "Carrier Parcel") to obtain, within 120 days of approval of this Rezoning (Petitioner may, in its sole discretion, extend such period for up to 60 days), the applicable right-of-way to allow construction of the Option B Connection/Hucks Road Extension, including access to the Carrier Parcel, and dedicate it to the City. If Petitioner is unable to work with the owner(s) of the Carrier Parcel to obtain the right-of-way for the Option B Connection within 120-day period (as may be extended by Petitioner), the Petitioner shall have no further obligations for the Option B Connection, and petitioner will provide the Option A Connection as described above.

- If Tax Parcel 025-03-112 located adjacent and to the west of the site (the Metromont Development Parcel) as shown on the rezoning plan is submitted for land development permits for an integrated development for the combined property, the petitioner will continue the street connection (Option A or B) from the western boundary of the site to the western boundary of the Metromont Development Parcel to align with the existing Metromont Parkway right-of-way. (The petitioner does not currently own the Metromont Development Parcel)
- Provides Public Street A as a local industrial street with a 55-foot right-of-way. The intersection of Public Street A with the Option A or B Connection/Hucks Road Extension may be adjusted as reasonably necessary.
- Dedicates an additional 28 feet of right-of-way for an overall 58-foot right-of-way as measured from the existing centerline along Old Statesville Road.
- Provides an eight-foot planting strip and 12-foot multi-use path along Old Statesville Road to the extent that the expanded right-of-way is sufficient to support such improvements, and if not adjustments to the 12-foot multi-use path may be provided.

Commits to the following architectural standards and design guidelines:

- Proposes to use a variety of building materials, including a combination of the following: glass, brick, stone, simulated stone, pre-cast stone, precast concrete, synthetic stone, stucco, cementitious siding (such as hardi-plank), metal panels (on north and west elevations only), EIFS, cast on site concrete panel or wood.
- Prohibits use of vinyl as a building material except on windows and soffits.
- Notes there will be a minimum of one street facing entrance to each public street. Corner entrances shall meet this requirement for both streets. Notes all pedestrian entrances, excluding emergency exits, will be architecturally defined with glazing, awnings, canopies and/or architectural elements, and have a connection to adjacent public streets.
- States buildings located along the frontage of Old Statesville Road and Hucks Road Extension will not have loading area elevations oriented directly to Old Statesville Road and Hucks Road.
- Notes that if loading areas are not placed to the rear of the building, landscaping will be provided to screen the loading areas.
- Buildings located along Public Street A may be oriented to Public Street A.
- Proposes a 75-foot Class B buffer along the north property line.

- **Existing Zoning and Land Use**

- The site is partially developed with single family homes. The remainder is vacant.
- The site is surrounded by a mix of institutional, office/industrial/warehouse uses, single family homes and vacant land in various zoning districts.

The subject property is developed with single family homes.

The property to the north along Old Statesville Road is developed with Alexandriana Park with an historic site and vacant land.

The property to the south along Old Statesville Road is developed with an industrial use.

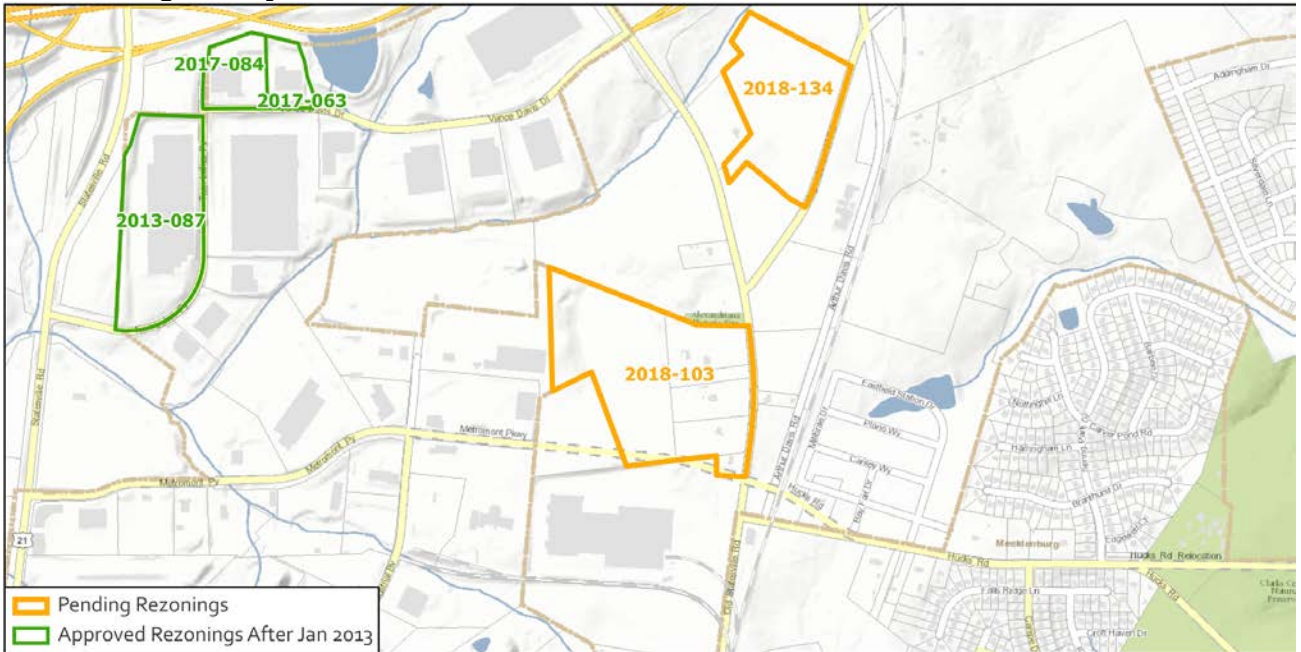

Properties to the east along Old Statesville Road are developed with a religious institution and undeveloped land.

Properties to the west along Metromont Industrial Boulevard are developed with industrial uses.

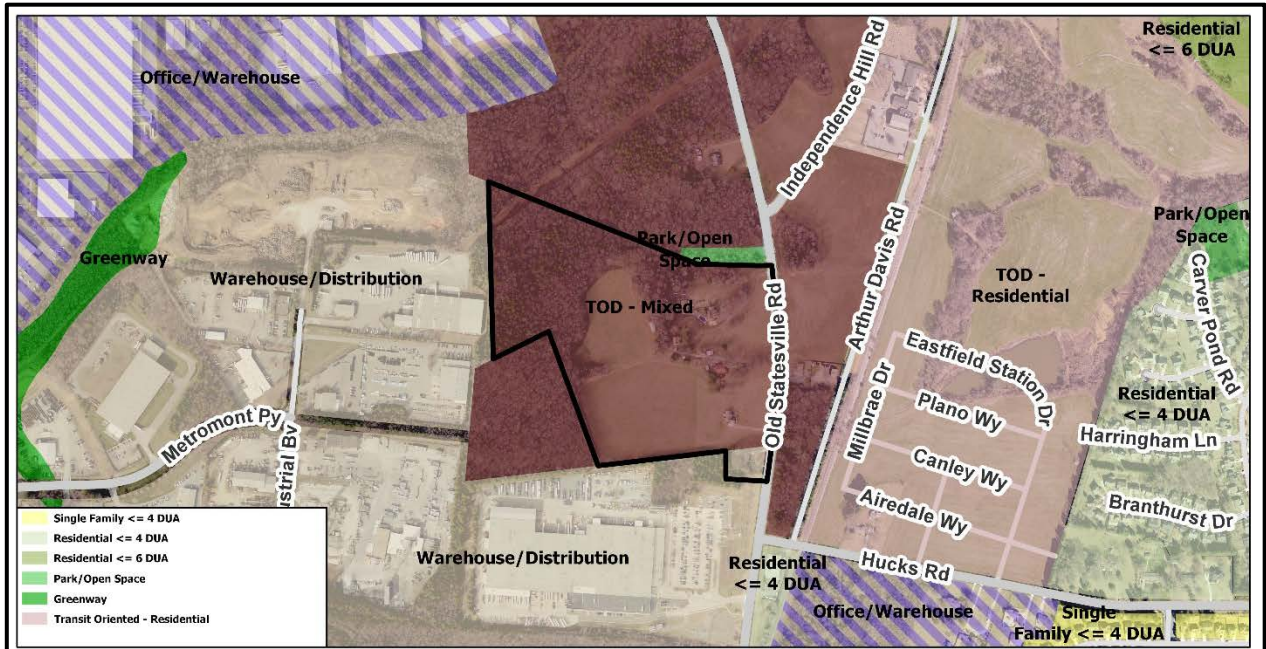

• **Rezoning History in Area**

Petition Number	Summary of Petition	Status
2018-134	Rezone approximately 19.61 acres from R-4 (single family residential) to UR-2(CD) (urban residential, conditional) to allow a multi-family residential community.	Pending

2017-084	Rezoned approximately 5.14 acres from BP (business park) to I-1 (light industrial) to allow all uses in the I-1 (light industrial) zoning district.	Approved
2017-063	Rezoned approximately 3.415 acres from BP (business park) to I-1 (light industrial) to allow all uses in the I-1 (light industrial) district.	Approved
2016-103	Rezoned approximately 3 acres from I-1 (light industrial) to I-2 (general industrial) to allow all uses in the I-2 (general industrial) district.	Approved
2013-087	Rezoned approximately 20.47 acres from BP (business) to I-1 (light industrial) to allow all uses in the I-1 (light industrial) district.	Approved

• **Public Plans and Policies**

- The *Northlake Area Plan* (2008) recommends a mixture of transit oriented uses (residential, office and retail) for most of the site, and industrial-warehouse-distribution uses for a small portion of the site.
- The site is located within the North Growth Corridor, as per the *Centers, Corridors and Wedges Growth Framework*. Growth Corridors are characterized by the diversity of places they encompass from historic neighborhoods, to vibrant mixed use areas, to significant employment and shopping districts and by accessibility and connectivity they provide these places.

• **TRANSPORTATION CONSIDERATIONS**

- The site is located on Old Statesville Road and currently serviced by CATS Bus Route #53X at Old Statesville Road and I-485. The site is proposing to dedicate right-of-way along Old Statesville Road to accommodate the future NCDOT NC 115 widening project. CDOT is continuing to work with petitioner on the future Hucks Road alignment.
- See *Outstanding Issues, Note 2*: Addressed See New Outstanding Item 2. **Not Addressed**
- **Vehicle Trip Generation:**
- Current Zoning:
 - Existing Use: 40 trips per day (based on four dwellings).
 - Entitlement: 1,460 trips per day (based on 143 dwellings).
- Proposed Zoning: 1,960 trips per day (based on 550,000 square feet warehouse).

DEPARTMENT COMMENTS (see full department reports online)

- **Charlotte Area Transit System:** NC 115 for the Red Line Commuter Rail is the adopted 2030 Transit System Plan Locally Preference Alternative (LPA) for the North Corridor. CATS is evaluating other options on new corridors such as Light Rail and BRT, however the direction from the MTC is to carry all options to the end of the current study and to not make a LPA recommendation.
- **Charlotte Department of Housing and Neighborhood Services:** No outstanding issues.
- **Charlotte Fire Department:** No outstanding issues.
- **Charlotte-Mecklenburg Schools:** No comments submitted.

- **Engineering and Property Management:**
 - **Arborist:** No outstanding issues.
 - **Erosion Control:** No outstanding issues.
 - **Land Development:** No outstanding issues.
 - **Storm Water Services:** No outstanding issues.
 - **Urban Forestry:** No outstanding issues.
- **Mecklenburg County Land Use and Environmental Services Agency:** No outstanding issues.
- **Mecklenburg County Parks and Recreation Department:** No outstanding issues.

OUTSTANDING ISSUES

Transportation

1. The petitioner should revise the site plan and conditional note(s) to provide for the following two public streets within the site as specified by the City's Thoroughfare Plan and Subdivision Ordinance:
 - a) Hucks Road is designated as a major thoroughfare, requiring 100' right-of-way (see below Charlotte Region Transportation Planning Organization's (CRTPO) approved realignment). The westward Hucks Road alignment needs to be directed and connected to Metromont Parkway. CDOT is requesting a meeting with the petitioner to review and revise the current alignment of Hucks Road, to minimize its impact to the proposed development (i.e. align Hucks Road as close to the site's southern property line as possible). **New Comment:** After meeting with CDOT and Planning the Petitioner needs to show three (3) different alternatives regarding Hucks Road alignment "west" of Old Statesville Road as follows:
 - a. **Alternative 1 (Preferred Alternative)** -- Hucks Road alignment to remain as shown on CRTPO's Thoroughfare Plan (i.e. requiring right-of-way from tax parcel 025-27-103). The Petitioner will attempt to acquire the subject right-of-way, using the City's Offsite "Right-of-Way" Acquisition Process Overview for Public Infrastructure Associated with Private Development Projects procedure. The petition needs to revise the site plan and conditional note 3.c.i. to state: "The petitioner shall document the off-site right-of-way acquisitions using the City's procedure and complete this task before the release of approved construction permitting plans".
 - b. **Alternative 2** -- CDOT has requested Hucks Road's re-alignment design CADD files, east of Old Statesville Road from NCDOT. The petitioner needs to use the NCDOT design files as their base and provide a new Hucks Road alignment "west" of Arthur David Road holding the existing tie-in point at Arthur David Road, as is. The new alignment proposed by the petitioner west of Statesville Road shall minimize property taken from tax parcel 025-27-103.
 - c. **Alternative 3** -- The petitioner shall revise the site plan to provide a temporary east/west public two-lane local industrial street section between Old Statesville Road to the site's proposed north/south local industrial street, including all necessary future Hucks Road right-of-way needs within the site. **Addressed**
2. **New comment due to revised site plan:** Revise the site plan to preserve sufficient right-of-way to implement the Option B (i.e. the preferred option) in the future by others. Once others are ready to construct Option B, the petitioner shall dedicate right-of-way in fee simple to the City.

Outstanding

Site and Building Design

3. Add the following note: All building entrances will have direct sidewalk connections to the public street sidewalk on which they front (this includes Old Statesville Road, Hucks Road, and Public Street A). **Addressed**
4. Add language to state that loading area elevations will be screened from view if adjacent to Public Street A. **Addressed**
5. List the proposed uses in the General Provisions and reference them in the Site Development Data as the two sections currently do not match. **Addressed**
6. Show and label the transitional setback on the site plan. **Addressed**
