Revision Log:

| Date | Description |
|----------|------------------|
| 02-13-19 | First Review IW |
| 03-13-19 | Second Review IW |

General Review Information

The site is on N Davidson Street (minor thoroughfare) within 100' of E 34th Street (local). The site is located in a wedge inside Route 4 and is within the limits of the 36th Street Transit Station Area Plan.

CDOT's review of this rezoning petition is intended to ensure consistency with the Transportation Action Plan (TAP) which seeks to ensure that the City's transportation network supports current and future land uses and includes streets that provide safe and comfortable mobility for motorists, pedestrians, bicyclists, and transit users.

This document is primarily for communication to Planning Department staff as part of the overall City staff analysis of the rezoning petition and includes an overall summary of the case from a transportation perspective, information on trip generation, and resolved or outstanding site plan concerns. Additional advisory information about the driveway permit process is provided for information only.

Based on our review of the petition, we offer the following information for your consideration.

Transportation Summary

This site is located along a minor thoroughfare. The site commits to expanding the existing sidewalk for better walkability for pedestrians. CDOT is requesting that the petitioner specify in the conditional notes that they are dedicating the shown future right-of-way along North Davidson.

Trip Generation

| Scenario | Land Use | Intensity | Trip Generation (vehicle trips/day) | Source |
|---------------------------------|--------------------------------|----------------------------|-------------------------------------|--------------------------------|
| Existing Use | Single Family | 1 dwelling | 10 | Tax Record |
| Entitlement with Current Zoning | Single Family (0.22 ac of R-5) | 1 dwelling | 10 | General Guidance from Planning |
| Proposed Zoning | 0.22 ac of TOD-MO | Too many uses to determine | | Site Plan: 03-11-19 |

Outstanding Issues

Strikeout = Not an outstanding issue

- ~~**Curbline** The proposed zoning district has a setback measured from back of the existing or proposed future curbline. The location of the back of curb is in its existing location.~~
- ~~**Traffic Study** A Traffic Impact Study/Transportation Technical Memorandum is not necessary for the complete review of this petition.~~

Rezoning Transportation Analysis

Petition Number: 2019-013

General Location Identifier: 08307111

3. ~~The petitioner should revise the site plan and conditional note(s) to remove the label on site plan noting "type II driveway", the driveway type will be determined and confirmed during permitting.~~
4. ~~The petitioner should revise the site plan and conditional note(s) to commit and install full width sidewalk from back of curb to front of existing porch, approximately 10.5'.~~
5. The petitioner should revise the site plan and conditional note(s) to show and label 30' of Right-of-Way to be dedicated from centerline.
6. ~~The petitioner should revise the site plan to add a note specifying dedication and fee simple conveyance of all rights of way to the City before the site's first building certificate of occupancy is issued. CDOT requests right of way set at 2' behind back of sidewalk where feasible.~~
7. **Resolved** ~~Sample format for comment that is resolved~~

Advisory Information

The following are requirements of the developer that must be satisfied prior to driveway permit approval. We recommend that the petitioner reflect these on the rezoning plan as-appropriate.

1. According to the City of Charlotte's Driveway Regulations, CDOT has the authority to regulate/approve all private street/driveway and public street connections to the right-of-way of a street under the regulatory jurisdiction of the City of Charlotte.
2. Adequate sight triangles must be reserved at the existing/proposed street entrance(s). Two 35' x 35' sight triangles (and two 10' x 70' sight triangles on North Carolina Department of Transportation on NCDOT maintained streets) are required for the entrance(s) to meet requirements. All proposed trees, berms, walls, fences, and/or identification signs must not interfere with sight distance at the entrance(s). Such items should be identified on the site plan.
3. The proposed driveway connection(s) to public streets will require a driveway permit(s) to be submitted to CDOT (and the North Carolina Department of Transportation on NCDOT maintained streets) for review and approval. The exact driveway location(s) and type/width of the driveway(s) will be determined by CDOT during the driveway permit process. The locations of the driveway(s) shown on the site plan are subject to change in order to align with driveway(s) on the opposite side of the street and comply with City Driveway Regulations and the City Tree Ordinance.
4. All proposed commercial driveway connections to a future public street will require a driveway permit to be submitted to CDOT for review and approval.
5. Any fence or wall constructed along or adjacent to any sidewalk or street right-of-way requires a certificate issued by CDOT.
6. A Right-of-Way Encroachment Agreement is required for the installation of any non-standard item(s) (irrigation systems, decorative concrete pavement, brick pavers, etc.) within a proposed/existing City maintained street right-of-way by a private individual, group, business, or homeowner's/business association. An encroachment agreement must be approved by CDOT prior to the construction/installation of the non-standard item(s). Contact CDOT for additional information concerning cost, submittal, and liability insurance coverage requirements.
