## Revision Log:

Date	Description
04-16-19	First Review
05-16-19	Second Review

## General Review Information

The site is at the unsignalized intersection of Providence Road (major thoroughfare) and Jefferson Drive (local) and is located in a wedge outside Route 4.

---

*CDOT's review of this rezoning petition is intended to ensure consistency with the Transportation Action Plan (TAP) which seeks to ensure that the City's transportation network supports current and future land uses and includes streets that provide safe and comfortable mobility for motorists, pedestrians, bicyclists, and transit users.*

*This document is primarily for communication to Planning Department staff as part of the overall City staff analysis of the rezoning petition and includes an overall summary of the case from a transportation perspective, information on trip generation, and resolved or outstanding site plan concerns. Additional advisory information about the driveway permit process is provided for information only.*

---

Based on our review of the petition, we offer the following information for your consideration.

## Transportation Summary

This site is at the intersection of Providence Road, a state maintained major thoroughfare, and Jefferson Drive. The petitioner has agreed to construct 8' planting strips, a 12' multi-use path along Providence Road frontage and 8' sidewalk along Jefferson Drive, while maintaining the existing trees. The petitioner will also be making ADA accommodations at the Shalom Park entrance.

## Trip Generation

Scenario	Land Use	Intensity	Trip Generation (vehicle trips/day)	Source
Existing Use	Single Family	7 dwellings	70	Tax Record
Entitlement with Current Zoning	Single Family (5.73 acres of R-3) 5.29 acres of R-1	17 dwellings	200	General Guidance from Planning and RZ 1991-035
Proposed Zoning	<del>Independent Living</del> <del>Assisted Living</del>	<del>150 dwellings</del> <del>32 beds</del>	<del>390</del>	<del>Site Plan: 03-01-19</del>
	Independent Living Assisted Living	126 dwellings 24 beds	320	Site Plan: 05-14-19

## Outstanding Issues

~~Strikeout~~ = Not an outstanding issue

# Rezoning Transportation Analysis

Petition Number: 2019-040

General Location Identifier: 18707202, 18707203, 12710804

1. ~~Traffic Study~~ A Traffic Impact Study is not necessary for the complete review of this petition.
2. The petitioner should revise the site plan conditional note(s) to extend the proposed 8' sidewalk along Jefferson Drive to Armstrong Drive.
3. The petitioner should revise the site plan conditional note(s) to commit to place the 12' multi-use path that falls outside the right-of-way along Providence Road in a sidewalk utility easement.
4. **COMMENT RESCINDED:** The petitioner should revise the site plan conditional note(s) to commit to construct, and continue the 8' planting strip and 12' multi-use along Providence Road property frontage.
  - a. **NEW COMMENT:** CDOT recognizes the existing conditions and would like to preserve the tree line behind the sidewalk. In lieu of the continued multi-use path, CDOT is requesting the petitioner update the existing ramps along the Providence Road frontage and rebuild them to current city standards.
5. The petitioner should revise the site plan to show existing CATS bus stop, pedestrian crossing, and sidewalk along Providence Road.
6. The petitioner should revise the site plan to add a note specifying dedication and fee simple conveyance of all rights of way to the City before the site's first building certificate of occupancy is issued. CDOT requests right of way set at 2' behind back of sidewalk where feasible.
7. The petitioner should revise the site plan to add a note specifying all transportation improvements will be approved and constructed before the site's first building certificate of occupancy is issued. The petitioner may phase transportation improvements if said improvements and phasing are explicitly described in site plan notes.

## Advisory Information

The following are requirements of the developer that must be satisfied prior to driveway permit approval. We recommend that the petitioner reflect these on the rezoning plan as appropriate.

1. According to the City of Charlotte's Driveway Regulations, CDOT has the authority to regulate/approve all private street/driveway and public street connections to the right-of-way of a street under the regulatory jurisdiction of the City of Charlotte.
2. Adequate sight triangles must be reserved at the existing/proposed street entrance(s). Two 35' x 35' sight triangles (and two 10' x 70' sight triangles on North Carolina Department of Transportation on NCDOT maintained streets) are required for the entrance(s) to meet requirements. All proposed trees, berms, walls, fences, and/or identification signs must not interfere with sight distance at the entrance(s). Such items should be identified on the site plan.
3. The proposed driveway connection(s) to public streets will require a driveway permit(s) to be submitted to CDOT (and the North Carolina Department of Transportation on NCDOT maintained streets) for review and approval. The exact driveway location(s) and type/width of the driveway(s) will be determined by CDOT during the driveway permit process. The locations of the driveway(s) shown on the site plan are subject to change in order to align with driveway(s) on the opposite side of the street and comply with City Driveway Regulations and the City Tree Ordinance.
4. All proposed commercial driveway connections to a future public street will require a driveway permit to be submitted to CDOT for review and approval.
5. Any fence or wall constructed along or adjacent to any sidewalk or street right-of-way requires a certificate issued by CDOT.
6. A Right-of-Way Encroachment Agreement is required for the installation of any non-standard item(s) (irrigation systems, decorative concrete pavement, brick pavers, etc.) within a proposed/existing City maintained street right-of-way by a private individual, group, business, or homeowner's/business association. An encroachment agreement must be approved by CDOT prior to the construction/installation of the non-standard item(s). Contact CDOT for additional information concerning cost, submittal, and liability insurance coverage requirements.
