PROJECT BACKGROUND

Ordinance was adopted in 1958 and revised in 1988. Charlotte has become more urban and uses are now much closer together.

It has become increasingly difficult to determine differences between restaurants and nightclubs.

The question now is whether the current zoning definitions and standards from the past are still appropriate today.

Our goal is to adequately describe the uses and to develop standards so that there is no adverse impact to nearby residential areas.

Meeting Objectives:

1. Explain Citizen Advisory Role and Process. Provide information on project background, process, schedule and current regulations
2. Identify issues and concerns with zoning ordinance current definitions and standards for nightclubs and restaurants

Citizen Advisory Group (CAG):

- Help identify issues and concerns
- Help identify possible solutions
- Provide feedback on staff recommendations
- Attend and participate in meetings

Staff:

- Educate and inform
- Help identify issues and concerns
- Help identify possible solutions
- Attend and facilitate meetings
- Develop and present recommendations to Planning Commission and City Council

Four month process:

August 25 – Meet with CAG & Identify Issues

September 15 – Review Issues & Identify Solutions
CAG and Staff

September 22 – Review & Revise Options - CAG and Staff

October 20 – Draft Text Amendment - Staff

November 18 – Revision of Draft (if necessary)- Staff

December 15 – Final Draft

Final product could be a recommended amendment to the Zoning Ordinance addressing restaurant and nightclub uses that will need to be approved by Council.

Nightclub is defined as:

Any commercial establishment serving alcoholic beverages and providing entertainment for patrons including bars, lounges, and cabarets.

Restaurant is defined as:

- An establishment designed, in whole or in part, to accommodate the consumption of food and/or beverages.
