Current Nightclubs, Bars, Lounges and Restaurants Definition

Recommended Eating, Drinking and Entertainment Establishment Definition

► Purpose

Understanding Our Challenges

Our purpose was to analyze the challenges facing business owners and residential property owners under the existing *Zoning Ordinance* definitions for Restaurants, Nightclubs, Bars and Lounges. The current definitions were established prior to 1981 and have become inadequate to provide the necessary regulations for Charlotte as it grows and becomes a more urban community.

Creating a New Approach

The term “Eating, Drinking and Entertainment Establishment” combines and replaces the separate terminologies previously used for Restaurants, Nightclubs, Bars and Lounges and provides clearly defined and enforceable regulations that protect and foster good relationships between businesses and residential properties.

Promoting positive, beneficial settings for both business owners and residents.

Eating, Drinking and Entertainment Establishment Summary of Proposed Changes

- Creates new definitions of Eating, Drinking and Entertainment Establishments to reflect the similar character and emerging business model of these uses.
- Allows greater entertainment offerings with understandable definitions and rules.
- Reduces the separation requirements for these uses by using proximity to a vacant lot or single family dwelling when either is located in a single family zoning district.
- Creates consistent separation distances for urban districts.
- Increases flexibility by creating more than one compliance option for businesses wanting to offer outdoor seating or entertainment.

Eating, Drinking and Entertainment Establishment Details of Proposed Changes

Proposed Changes

We have created simpler classifications and more flexible rules that impact less than 2% of existing EDEEs.

- Makes it simpler for business to know how to comply with the rules and make it easier for the City of Charlotte to enforce its rules on behalf of citizens.
- Relaxes a number of requirements for Eating Drinking and Entertainment Establishments (EDEE) to allow them to adapt and innovate to serve Charlotte's diverse business and neighborhood environment.
- Identifies and addresses the need to regulate the secondary impacts that have been expressed by residential property owners.
- Creates simpler classifications and more flexible rules that impact less than 2% of existing EDEEs.

Other Related Issues

Staff has heard your concerns and will inform the appropriate department of other issues.

- Zoning Ordinance changes alone will not fully address the issues that have been raised through this process.
- Staff will forward and request consideration of identified issues to other departments, including:
 - CMPD – Noise Ordinance enforcement
 - LUESA – Increased Building Code standards for mixed uses and/or noise attenuation
