

RECOMMENDATION

We have the following comments that are critical to CMS' support of this petition:

Adequacy of existing school capacity in this area is a significant problem. We are particularly concerned about rezoning cases where school utilization exceeds 100% since the proposed development will exacerbate this situation. Approval of this petition will increase overcrowding and/or reliance upon mobile classrooms at the schools listed below.

The total estimated capital cost of providing the additional school capacity for this new development is \$1,096,000 calculated as follows:

Elementary School: 35 \$20,000 = \$700,000

Middle School: 9 \$23,000 = \$207,000

High School: 7 x \$27,000 = \$189,000

CMS recommends the petitioner schedule a meeting with staff to discuss any opportunities that the petitioner/developer may propose to improve the adequacy of school capacity in the immediate area of the proposed development.

TOTAL IMPACT FROM PROPOSED DEVELOPMENT

Proposed Housing Units: (36 existing and 69 proposed) Conditional district request to reduce number of units to 120 multi-family units for sale or for rent units under MUDD (CD) SPA zoning. Existing and proposed amount to 105 units.

CMS Planning Area: 3

Average Student Yield per Unit: 0.7451 (worst-case)

This development will add 51 students to the schools in this area.

The following data is as of 20th Day of the 2012-13 school year.

<i>Schools Affected</i>	<i>20th Day, 2012-13 Enrollment (non-ec)</i>	<i>Total Classroom Teachers</i>	<i>Building Classrooms/ Teacher Stations</i>	<i>20th Day, 2012-13 Building Utilization (Without Mobiles)</i>	<i>Building Classroom/ Adjusted Capacity (Without Mobiles)</i>	<i>Additional Students As a result of this development</i>	<i>Utilization As of result of this development (Without Mobiles)</i>
BYERS PRE-K 8	552	35.5	36	99%	616	35	104%

WEST CHARLOTTE HS	1768	99.5	96	104%	2680	7	104%

INCREMENTAL IMPACT FROM PROPOSED DEVELOPMENT*

Existing number of housing units allowed: Currently partially developed with 36 multi-family units under MUDD (CD) zoning

Number of students potentially generated under current zoning: 27 student(s) (18 elementary, 5 middle, 4 high)

The development allowed under the existing zoning would generate 27 student(s), while the development allowed under the proposed zoning will produce 51 student(s). Therefore, the net change in the number of students generated from existing zoning to proposed zoning is 24 student(s).

As requested, we are also providing information regarding the difference in the number of potential students from the existing zoning to the proposed zoning. Please note that this method of determining potential numbers of students from an area underestimates the number of students CMS may gain from the new development.
