

Charlotte Storm Water
600 East Fourth Street
Charlotte, N C 28202-2844

Rezoning Petition Review

To: Planning, Design & Development

From: Doug Lozner

Date of Review: April 18, 2019 (***Revised October 31, 2019***)

Rezoning Petition #: 19-36

Existing Zoning: R-3

Proposed Zoning: I-2 (CD)

Location of Property: Approximately 8.70 acres located on the west side of Rhyne Rd, south of Mt Holly Rd and west of I-485.

Recommendations

Concerning Storm Water: City of Charlotte GIS data indicates a 30-ft PCSO buffer across the site. Please show and label *Potential 30-ft PCSO Buffer* on the site plan. Any increase of impervious area within such buffers may not be allowed and is not approved with the rezoning process. Please include the following note under Environmental Features: *"Development within any SWIM/PCSO Buffer shall be coordinated with and subject to approval by Charlotte-Mecklenburg Storm Water Services and mitigated if required by City ordinance."* Please note Stream Delineation Reports are subject to review and approval by Charlotte Storm Water Services.

Recommendations

Due to revisions (10/31/19): The proposed rezoning plan sheet indicates a proposed location for storm water management. Please include the following notes on the plan sheet under "Environmental Features": *The location, size, and type of storm water management systems depicted on the Rezoning Plan are subject to review and approval as part of the full development plan submittal and are not implicitly approved with this rezoning. Adjustments may be necessary in order to accommodate actual storm water treatment requirements and natural site discharge points.*
