

**MECKLENBURG COUNTY
Land Use & Environmental Services Agency**

MEMORANDUM

To: Charlotte-Mecklenburg Planning Commission

From: LUESA, Mecklenburg County

Date: 12.22.25

Subject: Rezoning Petition Comments

Charlotte-Mecklenburg Planning Commission
600 East Fourth Street Charlotte, North Carolina 28202

Mecklenburg County has reviewed the City of Charlotte rezoning petition below to identify regulatory requirements of the petitioner; inform the petitioner, planning staff, and other affected parties of such regulatory requirements; and identify potential effects on, and impacts from, nearby properties.

Petitioner Information: AREG US OPP IV SHOPTON RD HOLDCO & LLC 3060 Peachtree Rd NW Atlanta, GA, 28209 Work Phone: 704-200-2637 brittany.lins@alexanderricks.com	Parcel GIS ID(s): 14117110; 14117122
Existing Zoning: BP(CD) Current Use: Vacant	Proposed Zoning: N2-B(CD) Additional Proposed Zoning: No Primary Proposed Zoning: N2-B-CD Neighborhood 2 Zoning District Conditional Request Type: Conditional (Tier 3)

2025-128: Shopton – AREG N2

Air Quality Comments: The petitioner will be notified of the local dust ordinance requiring property owners, and their contractors, to minimize dust leaving their property.

The rezoning will result in residential dwellings being located adjacent to a high-traffic roadway.

MCAQ recommends that the petitioner follow U.S. Environmental Protection Agency best practices to minimize exposure to near-road air pollution including siting residential units>500

feet from the roadway or installing specialized vegetative barriers along roadways.

Communication will be sent directly to the petitioner.

Ground Water Services Comments: Executive Summary: Septic registration records noted for parcel 141-171-10.

Groundwater & Wastewater Services records indicate a registered septic system exists on parcel 141-171-10 listed in the petition. No regulations govern the abandonment of septic systems; however, GWS does recommend that septic tanks be pumped by a NC Licensed Septic Hauler to remove any residual contents and then crushed and backfilled. This recommendation is made because improperly abandoned septic tanks may not be able to support the weight of vehicular traffic, structural foundations or people posing a safety hazard.

Storm Water Services Comments: Property not in the floodplain, no comments

Solid Waste Comments: No comments

Department Contacts:

Petitioners seeking to address individual comments and issues may follow up with the following Mecklenburg County staff:

Air Quality Comments: Megan Green - (megan.green@mecklenburgcountync.gov)

Ground Water Services: Shawna Caldwell - (shawna.caldwell@mecklenburgcountync.gov)

Storm Water Services: Myrette Stephen - (myrette.stephen@mecklenburgcountync.gov)

Solid Waste Comments: Joe Hack - (joe.hack@mecklenburgcountync.gov)

Additionally, please CC Erin Stanforth, (erin.stanforth@mecklenburgcountync.gov) on all communications to individual departments.

MCAQ Scope of Review:

Mecklenburg County Air Quality (MCAQ) has reviewed the petitions with regard to air quality regulations for stationary sources and demolition and/or renovation of structures (e.g. National Emission Standards for Hazardous Air Pollutants for asbestos). Comments may also be made regarding incompatible land uses, sources of Toxic Air Pollutants, proximity to Risk Management Plan facilities, and proximity to known nuisance conditions or sensitive populations. MCAQ has conducted the review based on information submitted by the petitioner, review of aerial photographs (as available through the Mecklenburg County Polaris system), review of the "Air Pollution Facility Information Online" database available from the MCAQ website, and review of Mecklenburg County Health Department records. The review is cursory based on limited information provided within petition applications and site plans.
