STAFF RECOMMENDATION

Staff recommends approval of this petition.

Plan Consistency

The petition is **inconsistent** with the 2040 Policy Map recommendation for the Neighborhood 1 Place Type.

Rationale for Recommendation

- The site is adjacent to multi-family attached residential dwellings to the west along Shopton Road.
- The site is within 1/3 mile of a commercial node at Shopton Road and Steele Creek Road, providing walkable access to goods and services.
- The petitioner has committed to provide a larger landscape yard than required by the ordinance with a 20' yard planted to Class B standards with a 6' opaque fence along the northern property boundary where adjacent to single family detached dwellings.

- The petition meets preferred criteria for changing to a Neighborhood 2 Place Type given its adjacency to the Neighborhood 1 Place Type, proximity to a commercial node, and location fronting an arterial street.
- The petition could facilitate the following 2040 Comprehensive Plan Goals:
 - 1: 10 Minute Neighborhoods
 - 2: Neighborhood Diversity & Inclusion

The approval of this petition will revise the recommended place type as specified by the 2040 Policy Map, from the Neighborhood 1 Place Type to the Neighborhood 2 Place Type for the site.
