Revision Log:

Date	Description
04-23-26	First Review (CM)

General Review Information

The petition is located adjacent to West Summit Avenue, a City-maintained major collector, north of Merriman Avenue, a City-maintained local street. The petition is located in a south corridor inside of Route 4, within the Center City 2020 Vision Plan.

Active Projects Near the Site:

- LYNX Silverline, Phase A
 - External Project Description: Construct a light rail parallel to US 74.
 - Limits: from Morehead St to Campus Ridge Rd (Matthews)
 - Project Phase: Design; Project Type: Transit
 - CDOT PM: Corey Watt
- TIP - I-5718
 - Route: I-77 South
 - Description: South Carolina state line to I-277 / NC 16 (Brookshire Freeway). Widen freeway to ten lanes by constructing managed lanes and reconstruct I-277 interchanges. This is a toll project (managed lanes only).
 - Right of Way Year: 2029; Construction Year: 2029
- NCDOT Passenger Rail Maintenance Facility (TIP – P-29184F)
 - Description: CRISP Charlotte Maintenance Facility. Track extension and shop building.
 - Mode: Rail
 - Construction Year: In Progress

CDOT's review of this rezoning petition is intended to provide consistency with council adopted policies, plans, standards and guidelines including, but not limited to, the [Transportation Action Plan \(TAP\)](#), [Vision Zero](#), [Urban Street Design Guidelines \(USDG\)](#), [Center, Corridor and Wedges](#), [Charlotte BIKES](#), [Traffic Impact Study Guidelines](#) and [Charlotte WALKS](#). With a commitment to design complete streets, this review is to ensure that the City's transportation network supports current and future land uses and includes streets that provide safe and comfortable mobility for motorists, pedestrians, bicyclists, and transit users.

This document is primarily for communication to Planning Department staff as part of the overall City staff analysis of the rezoning petition and includes an overall summary of the case from a transportation perspective, information on trip generation, and resolved or outstanding site plan concerns. Additional advisory information about the driveway permit process is provided for information only.

Based on our review of the petition, we offer the following information for your consideration.

Rezoning Transportation Analysis

Petition Number: 2026-024

General Location Identifier: 11910318, 11910399, 11910398, 11910396, 11910395, 11910397

Transportation Summary

The petition is located adjacent to West Summit Avenue, a City-maintained major collector, north of Merriman Avenue, a City-maintained local street. Density information is needed to determine if Comprehensive Transportation Review (CTR) requirements are triggered. Site plan and/or conditional note revisions are needed to commit to provide density, update transportation conditional notes, show all public sidewalks as 8-foot wide, update street cross-sections based on proposed place-types in accordance with the UDO. Further details are listed below.

Scenario	Land Use	Intensity	Trip Generation			Source
			Daily Trips	AM Peak Hour Trips	PM Peak Hour Trips	
Existing Use	Vacant	-	-	-	-	Tax Record
Entitlement with Current Zoning	(ML-1, ML-2, OFC, N1-D 19 acres) *	-	-	-	-	General Guidance from Planning
Proposed Zoning	Need Density RAC & N2-A, 19 acres	-	-	-	-	Site Plan: 02-18-26

Trip Generation

*Trip generation not provided for this zoning district for conditional rezonings.

Petitioner to provide responses to the staff comments below as well as specify other changes to the site plan.

Outstanding Issues

Strikethrough = Resolved

1. Curblines:

- a. **West Summit Avenue:** Location of future back of curb and gutter needs to be a minimum 17.5 feet from centerline of roadway. Existing curb and gutter is not required to be relocated.

Label and dimension the curb and gutter from the centerline for each road on the site plan.

Rezoning Transportation Analysis

Petition Number: 2026-024

General Location Identifier: 11910318, 11910399, 11910398, 11910396, 11910395, 11910397

- b. **Merriman Avenue:** Location of future back of curb and gutter to be a minimum 20.5ft from centerline of roadway per CLDSM U-05. Existing curb and gutter is not required to be relocated.

Label and dimension the curb and gutter from the centerline for each road on the site plan.

- c. **Spruce Street:** Location of future back of curb and gutter to be a minimum 17.5 feet from centerline of roadway per CLDSM U-03. Existing curb and gutter is not required to be relocated.

Label and dimension the curb and gutter from the centerline for each road on the site plan.

- d. **New Public Street A:** Location of future back of curb and gutter to be constructed a minimum 20.5 feet from centerline of roadway per CLDSM U-05.

Label and dimension the curb and gutter from the centerline for each road on the site plan.

Rezoning Transportation Analysis

Petition Number: 2026-024

General Location Identifier: 11910318, 11910399, 11910398, 11910396, 11910395, 11910397

- e. **New Public Street B (Larch Street):** Location of future back of curb and gutter to be constructed a minimum 20.5 feet from centerline of roadway per CLDSM U-05.

Label and dimension the curb and gutter from the centerline for each road on the site plan.

2. Comprehensive Transportation Review (CTR):

Density information is needed to determine potential CTR requirements. Additional comments or requirements may arise once unit count is provided.

3. Revise site plan and conditional note(s) to commit to dedicate 33.5 feet right-of-way from the road centerline along West Summit Avenue and Spruce Street, minimum 36.5 feet along new public street A, new public street B, and Merriman Avenue. The site plan shall label and dimension the right-of-way from the road centerline.
4. Add a conditional note specifying "A Right-of-Way Encroachment Agreement is required for the installation of any non-standard item(s) (irrigation systems, decorative concrete pavement, brick pavers, etc.) within a proposed/existing City-maintained street right-of-way by a private individual, group, business, or homeowner's/business association. An encroachment agreement must be approved by CDOT prior to construction/installation. Contact CDOT for additional information concerning cost, submittal, and liability insurance coverage requirements."
5. Revise site plan and conditional note(s) to modify language in Transportation conditional note III.b to remove mention of "as development occurs". All public infrastructure must be constructed before first building certificate of occupancy.
6. Revise site plan and conditional note(s) to modify cross section of new public street B to a local office/commercial wide following CLDSM U-05.
7. Revise site plan and conditional note(s) to show all public sidewalks as 8 feet wide.
8. Revise site plan and conditional note(s) to show Spruce Street as a local residential wide cross section following CLDSM U-03. Update site plan, conditional notes, and section E-E accordingly.
9. Revise site plan and conditional note(s) to modify language in Transportation conditional note III.b to remove mention of "as development occurs". All public infrastructure must be constructed before first building certificate of occupancy.
10. Revise site plan and conditional note(s) to modify language in Transportation conditional note III.d to commit to constructing new public street B (Larch Street) to CLDSM U-05 standards within site and connecting to existing Larch Street.

Rezoning Transportation Analysis

Petition Number: 2026-024

General Location Identifier: 11910318, 11910399, 11910398, 11910396, 11910395, 11910397

11. Transportation note III.k is a placeholder for TIS. Once determination is made, provide required improvements from TIS to site plan and conditional notes. If TIS is not required, remove this conditional note from site plan.
12. Transportation note III.g mentions that streetscape is generally depicted on site plan. Either show the streetscape on the site plan or reference the cross-sections located on RZ-3 and mention that streetscape will be installed as generally depicted on the cross-sections along the entire project frontage.
- ~~13. Add a conditional note specifying “the Petitioner shall dedicate and convey in fee simple all rights-of-way to the City before the site’s first building certificate of occupancy is issued. CDOT requests rights-of-way set at 2’ behind back of sidewalk where feasible.”~~
14. Revise Transportation conditional note III.j to “All transportation improvements will be approved and constructed before the site’s first building certificate of occupancy is issued.” Remove reference to associated development area of the site, unless you are specifically phasing the site. If you are specifically phasing the site, provide phasing information on site plan and within conditional notes.

Advisory Information

The following are requirements of the developer that must be satisfied prior to driveway permit approval. These requirements shall be reflected on the rezoning plan, as appropriate.

1. CDOT has the authority to regulate/approve all private street/driveway and public street connections to the right-of-way of a street under the regulatory jurisdiction of the City of Charlotte, per the City of Charlotte Unified Development Ordinance.
2. Adequate sight triangles must be reserved at the existing/proposed street entrance(s). Two 50' x 50' sight triangles (and two 10' x 70' sight triangles on NCDOT-maintained streets) are required for the entrance(s) to meet requirements. All proposed trees, berms, walls, fences, and/or identification signs shall not interfere with sight distance at the entrance(s) and shall be identified on the site plan.
3. The proposed driveway connection(s) to public streets will require a driveway permit(s) to be submitted to CDOT (and NCDOT on NCDOT-maintained streets) for review and approval. The exact driveway location(s) and type/width of the driveway(s) will be determined by CDOT during the driveway permit process. The locations of the driveway(s) shown on the site plan are subject to change in order to align with driveway(s) on the opposite side of the street and to comply with City of Charlotte Unified Development Ordinance regulations.
4. All proposed commercial driveway connections to a future public street will require a driveway permit submitted to CDOT for review and approval.
5. Any fence or wall constructed along or adjacent to any sidewalk or street right-of-way requires a certificate issued by CDOT.
6. To obtain a street and pedestrian lighting recommendation, the petitioner should visit the following link: <https://charlottenc.gov/Transportation/Programs/Pages/StreetLighting.aspx>
