
TO: Joe Mangum, Entitlement Services
FROM: Manal Mahmoud, Long Range Planning
SUBJECT: RZP 2026-013: 2040 Comprehensive Plan Consistency
LOCATION: Outlets Blvd
DESCRIPTION: Zoning Change Request from MUDD-O to MUDD-O(SPA)
ACREAGE: 3.9 acres
DATE: 5/5/2026

The Long-Range Division of the Planning, Design and Development Department offers the following comments on the above referenced rezoning petition.

Recommendation Summary

The petition is **consistent** with the [goals and policies of the Community Area Plan](#).

The petition is **in alignment** with the [Charlotte Future 2040 Policy Map](#) recommendation for the Community Activity Center Place Type

SOUTHWEST OUTER COMMUNITY AREA PLAN

The petition could facilitate the following priority for the Southwest Outer Community Area Plan:

Goal 1: 10 Minute Neighborhood Goal 1: This petition could help facilitate this goal by increasing the presence of amenities, goods, and services options in this area, with the development of 7000 square feet of gross floor area and a hotel of up to 125 rooms within a ½ mile walk, bike, or transit trip to single family, multi-family, and commercial options.

POLICY MAP

This petition **is in alignment** with the Community Activity Center (CAC) Place Type on the 2040 Policy Map (See Figure 1).

Figure 1: 2040 Policy Map

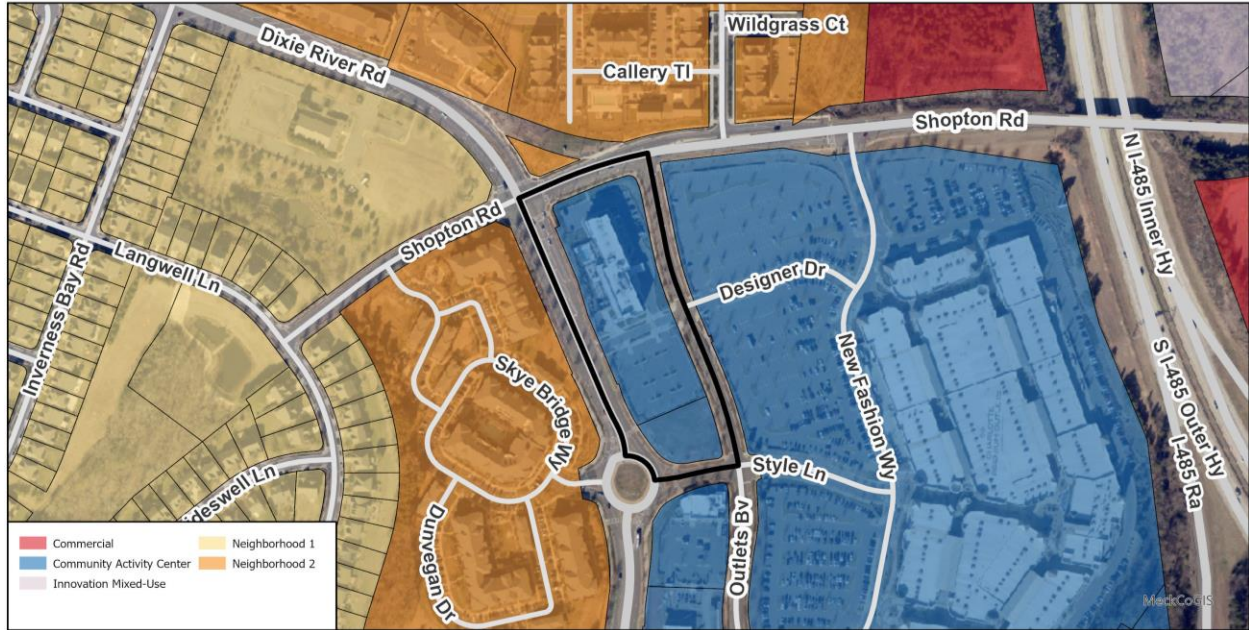

Table 1 below represents an analysis of Alignment with the 2040 Policy Map.

Table 1: Alignment with the 2040 Policy Map

2040 Policy Map Place Type Designation	Petition Consistency

**Comprehensive Plan, 2040 Policy Map, and Supporting Community Areas Plans
Community Area Plan (CAP) –Southwest Outer, November 24, 2025**

- Community Area Plan - Priority Goals of the Area Plan:**
While it is important to advance all ten of the Charlotte Future 2040 Comprehensive Plan goals across the City, some goals are more of a priority for a geography based on the community’s needs for increased access and reduced impacts.

Table 2 below represents an analysis of how the petition meets the components of the proposed **Community Activity Center (CAC)** Place Type.

Table 2: Community Activity Center Place Type Components

Place Type Component	Place Type Component Description	How does the petition specifically meet the Place Type Component?
Land Uses	<p>Typical uses are retail, restaurant and entertainment, and personal services. Some multi-family and office may also be located in this Place Type. In Transit Station Areas, multi-family and/or office may be primary uses. Some types of auto-oriented uses, well-designed to support walkability, may be located outside of the core of this Place Type.</p>	<p>This petition proposes up to 7000 square feet of gross floor area and a hotel of up to 125 rooms.</p>
Character	<p>This Place Type is characterized by low to mid-rise commercial, residential, civic/institutional, and mixed-use buildings in a pedestrian-oriented environment.</p>	<p>This petition proposes building height limited to 65 feet, within an extensive sidewalk network that connects to the nearby Charlotte Premium Outlets, within a few hundred feet (~500ft).</p>
Mobility	<p>These Place Types include a transportation network that supports highly accessible “10-minute neighborhoods” and a “park once” environment. Community Activity Centers are typically located at or near key intersections or on major Arterials with transit service. Easy access and direct connections to nearby residential neighborhoods help reduce trip lengths, keeps some cars off the Arterials, and encourages transit use, walking, or bicycling. The local street network is well-connected, with small blocks and highly walkable connections along streets and between destinations. There are frequent opportunities to cross adjacent Arterials, and the pedestrian network accommodates large groups of people.</p>	<p>The petition meets this component due to its proximity to a bus stop with access to Routes 55 & 56 (~250 feet from site).</p>
Building Form	<p>The typical building is a commercial, institutional, multi-family or mixed-use building of five to seven stories. Some</p>	<p>This petition proposes building height limited to 65 feet.</p>

	buildings in Transit Station Areas are taller. Buildings are designed with active ground floor uses to support a vibrant pedestrian environment. They have tall ground floors and a high degree of transparency using clear glass windows and doors.	
Open Space	Improved open space is a key feature of this Place Type. Community Activity Centers include numerous improved open spaces such as plazas, patios, and courtyards that may include landscaping. Public open spaces such as small parks and greenways, and natural open spaces such as tree preservation areas, are also an important feature and should be included in centers.	N/A

Community Area Plan - Supporting the Vision Policy and Assessment Recommendation Review

Supporting the Vision section outlines adopted and recommended policies, regardless of Place Type designations, to help guide decisions for Mobility, Open Space, Environmental Justice & Sustainability, Community Character and Public Facilities & Services.

The Mobility, Open Space and Community Character Assessments apply to petitions within an area designated by the 2040 Policy Map as an activity center. To fully realize the aspirations of those mixed-use Place Type recommendations and advance Charlotte’s goals, future development should help further aspirations related to Mobility, Open Space and Community Character.

Table 3 below represents an analysis of how the petition meets the policy recommendations. These policies are specifically tracked for rezoning petitions.

Table 3: Policy Recommendations

Policy Recommendation	How does the petition specifically meet the policy?
<p>Open Space OS-1: To increase access to open space, ensure new development/redevelopment provides enhanced open space(s), as encouraged by the designated Place Type and required by the Unified Development Ordinance.</p>	NA
<p>Environmental Justice EJ-1: To ensure future residents do not live near undesirable or unhealthy land uses, discourage residential development/redevelopment in areas designated Manufacturing & Logistics. When existing Manufacturing & Logistic sites are adjacent to residential development and request new entitlements, approve the least intense zoning district (ML-1).</p>	NA
<p>Environmental Justice EJ-2: To ensure compatible land uses near industrial land uses, encourage Commercial or Innovation Mixed-Use development/redevelopment adjacent to areas designated Manufacturing & Logistics.</p>	NA
<p>Environmental Justice EJ-8: To reduce brownfields and hazardous sites, the City should consider adjacent Place Type designations and preferred adjacencies, as outlined in the Policy Map Manual, when approving new land uses for redeveloped "Areas of Environmental Concern."</p>	NA
<p>Community Character CC-5: To retain neighborhood culture and identity, Charlotte should use pattern books and regulatory tools such as neighborhood character overlays, historic districts, and other community-driven strategies to guide residential infill development.</p>	NA
<p>Public Facilities PS-4: To ensure delivery of adequate public services, align Charlotte's annexation policy with public facility needs.</p>	NA

Assessment Recommendations (Petitions within an Activity Center or IMU)

Table 4 below represents an analysis of how the petition may help meet the aspirational goals for the CAC Place Type.

Table 4: Policy Recommendations (Petitions inside an Activity Center or IMU)

Assessment Recommendation	Does the petition specifically meet the recommendation?
<p>Mobility Help provide a pedestrian network that is complete, direct, safe and comfortable and designed to accommodate significant pedestrian activity.</p>	<p>The petition meets this recommendation due to the site being surrounded by an extensive sidewalk network that connects to the nearby Charlotte Premium Outlets, within a few hundred feet (~500ft).</p>
<p>Mobility Help provide a “park once” and walk development or other mobility options between destinations.</p>	<p>The petition meets this recommendation due to its proximity and walkability to the Charlotte Premium Outlets.</p>
<p>Mobility Help provide a center that is easily accessible via transit, and transit facilities located and designed to support accessibility.</p>	<p>The petition meets this recommendation due to its proximity to a bus stop with access to Routes 55 & 56 (~250 ft from site)</p>
<p>Open Space & Environmental Justice Help provide a public open space that is accessible within a 10-minute walk within the development.</p>	<p>NA</p>
