Petition No. 2008-011 (decision) by Eastern Pride, Inc. for a change in zoning of approximately 0.91 acres located between West Trade Street and West 5th Street, north of North Bruns Avenue from MUDD (CD) PED to B-1(CD) PED-O.</p> <p><i>Two protest petitions have been filed, 1 protest petition is sufficient to invoke $\frac{3}{4}$ majority-voting rule, but the other protest petition is not sufficient.</i></p> <p>The Zoning Committee found this petition to be consistent with the <i>West End Land Use and Pedscape Plan</i>, and voted 3-3 to recommend APPROVAL of this petition. Due to the tie vote, this petition is automatically deferred to the June Zoning Committee meeting to be reconsidered.</p> <p>More than 30-days have passed since the public hearing on this petition. In the event the City Council proceeds to a vote, staff recommends approval of this petition with the following modifications:</p> <p>A pedestrian promenade located at the main entrance and approximately 20 feet in width will connect to the public sidewalk along West Trade Street. This area will also include two rows of street trees flanking both sides of the sidewalk. The pedestrian promenade also extends along the entire length of the building over to the public sidewalk along West Fifth Street.</p> <p>The front of the building has been enhanced with additional height and a more defined and inviting entrance. See the attached revised building rendering.</p> <p>The new renderings and the elevations depict four-sided architecture with additional articulation.</p> <p>The required detention pond and the water quality area will be located in the open space. The detention will be placed underground and the water quality area will be screened. Landscape elements including street trees and plantings for parking lot screening purposes will be located along West Fifth Street, the northerly property line and West Trade Street.</p> <p>Vegetative material will be planted in accordance with the ordinance at five foot spacing around the parking lot.</p> <p>The site plan notes that if it is feasible, the detention facility will not disturb the oak tree located along West Fifth Street and the determination as to the feasibility will be made during the permitting process.</p>

	<p>The required detention pond will be underground and the water quality feature will be screened.</p> <p>The windows in the front entranceway area will be clear. Two out of the three sets of windows along West Trade Street will be clear. The other windows will be opaque so that the back of the fixtures are not visible from the outside. See the attached visual labeled "window rendering."</p> <p>Down lighting will be provided on the exterior of the building.</p> <p>No temporary signs will be placed in the windows.</p> <p>Shopping carts left in the parking area will be gathered by store personnel and returned to the interior of the store.</p> <p>The building will be built with oversize brick; however, as depicted in the new rendering and the elevations, the brick pattern is broken up with a series of windows, canopies, and soldier courses.</p> <p>The HVAC units will be screened and any ductwork associated with them will go directly into the building and not up the wall. No ductwork, wires, or pipes will be exposed. In addition, the dumpster or trash handling areas will be screened.</p> <p>Attachment 5</p>
