Update: The following issues have been addressed:
 The petitioner has included development notes that specify a scenario involving use of existing structure, and a scenario involving redevelopment of the site with construction of a new building and associated site improvements as provided below: The scenario involving use of existing structure notes that the existing 2,800 square foot structure will remain with a maximum 1,000 squarefoot expansion permitted. The maximum height of lighting will be 25 feet. The appearance of the building expansion will blend with existing structure.
 b. The scenario proposing redevelopment of the site states the new building will not exceed 7,765 square feet, with a maximum 40-foot building height and no more than two stories. The maximum height of lighting will be 25 feet. The appearance of the building will be residential in character and scale, with a minimum 50 percent masonry material along each building elevation. 2. The site plan is correctly labeled "Rezoning Petition 2012-082". 3. The site plan is in the proper format.
Update: The following issue remains outstanding:
1. Show a building footprint reflecting the proposed redevelopment scenario.
Update: The following item is a new outstanding issue:
1. CDOT requests that the petitioner not label the width (proposed 15'-5") of the new driveway, and that it be removed from the site plan (new issue).

Claire	3. Petition No. 2012-103 (Council District 1 - Kinsey) by Kenneth Lin and Jon Branham
Lyte-Graham	for a change in zoning for approximately 0.20 acres fronting both North Davidson Street and Yadkin Avenue between East 34 th Street and East 35 th Street from R-5 and B-1 to TOD-MO.
	Staff recommends approval of this petition.
	Attachment 5
	Update: The following issues have been addressed:
	 The petitioner has addressed the issue regarding the placement of the recycling/refuse area on the lot facing Yadkin Avenue via recordation of a recombination plat involving the swapping of land with the abutting property owner, thereby allowing the two parcels of the subject rezoning to adequately touch and be combined. The petitioner has listed the existing square footage, new (additional) square footage, and total square footage on the site plan.
	3. The petitioner has provided information on the site plan indicating that a second story will be constructed over the existing one-story building, and that a new three-story addition will be constructed in the rear of the proposed two-story portion. The petitioner has also provided the height of the existing building (15 feet) and the proposed height as 39 feet.
	4. The petitioner has removed "night club" from the Optional provision regarding parking. The petitioner has added notes on the site plan to indicate 4 on-street parking spaces, two of which are proposed to be shared with a neighboring business.
	5. The petitioner has modified Optional Provision 3 (Streetscape) to specify N. Davidson Street and requested that the existing 8-foot sidewalk be allowed to remain.
	6. The petitioner has removed the brick wall shown on the N. Davidson Street elevation and added a note stating it is not part of the site plan.
	7. The petitioner has revised the site plan to show the boundaries of the area proposed to be rezoned with a weighted line.
	8. Petitioner added the language provided written response regarding intent to coordinate with a local artist on the elevations to the actual elevation sheet.
	 The petitioner has addressed CDOT comments as follows: a. The petitioner has removed the proposed curb cut on Yadkin Avenue from the site plan.
	b. The petitioner has added language to state intent to work with neighboring property owners to secure additional parking.
	10. The appropriate standardized notes have been placed on the site plan (in addition to the Optional Provisions listed).
	11. The Optional Provision language for streetscape (on Yadkin Avenue) has been modified to specify the street name and request that the existing sidewalk be allowed to remain. The sidewalk width has been added to the additional language.
	12. Language has been added to the <i>Optional Provision</i> for the required 16-foot setback, and to allow new construction incorporating an existing structure be built to the established setback with the established setback identified as at back of the existing sidewalk.
	 13. The established setback has been identified on the site plan. 14. Optional Provision 1 (Setback) for the required 16-foot setback has been amended to allow new construction incorporating an existing structure be built to the established setback. The language now correctly identifies the established setback as being from the back of the existing sidewalk.

2012-103	15. Optional Provision 2 (Parking) has been modified to request to not provide
continued	required parking for the permitted uses until such a time occurs when the
	owners have the ability to provide the required parking.
	16. The petitioner has amended Optional Provision 3 (Streetscape) and added
	Optional Provision 4 to incorporate Yadkin Avenue into the request as it is
	subject to this requirement as well. This added language requests that a
	modified streetscape along Yadkin Avenue to allow a six-foot sidewalk at the
	back of the curb with no planting strip.
	17. The petitioner has also added office, retail and personal services as allowable
	uses in addition to the proposed restaurant.
	18. The petitioner has removed the sentence regarding lighting from <i>Landscaping</i>
	and placed it under the new Lighting heading. A note has been added under
	Lighting that states "wall pak" lighting will not be allowed.
	19. The sentence under Landscaping regarding planting strip along N. Davidson
	Street has been removed as this is an optional provision being requested.
	20. "Yadkin" Avenue is now spelled correctly on the site plan.
