

INDEPENDENCE BOULEVARD AREA PLAN

Community Advisory Group Comments on Draft Character Area Map

September 5, 2008

Page 1 of 4

**Neighborhood Node** Consider adding neighborhood node at this location

**Character** Consider neighborhood core in this area

**Barriers** Consider brick walls or sound barriers where neighborhoods are adjacent to Independence; buffer like Elizabeth and Chantilly

**Highway-Oriented District** Development is ugly and outmoded; convert to transit-oriented development

**At Transit Station** Need small retail – boutiques, etc., on north side of Independence

**Coliseum Shopping Center** Change to regional node with improved connectivity and build multi-use town center similar to Birkdale; include pedestrian connections to neighborhood

**New Street Connection** Provide connection between Eastway and Pierson parallel to Independence

**Norland Road** No Independence Blvd access is good

**New Street Connection** Good

**New Street Connection** Potential street connection

**New Street Connection** Potential street connection

**At Transit Station** Locate park or small retail; opportunity for water feature

**New Street Connection** Cut-throughs will harm neighborhoods

**Briar Creek Bridge** Add pedestrian walk to bridge

**Monroe Road** Curbs and sidewalks are not maintained, weeds covering sidewalks, ugly, street cleaning needed, repaving and sidewalk improvements needed

**Parks** More parks in this area

**Monroe Road** Why all industrial? Don't want to see all industrial fronting Monroe Road; need more neighborhood node on both sides of Monroe, especially at Wendover; reevaluate the land use of businesses that occupy single family homes

**Rail Line** Consider using existing rail line for light rail alignment

**Industrial Area** Potential for Class 'A' office space in this district, supported by residential, mixed-use, quality retail, business, etc...

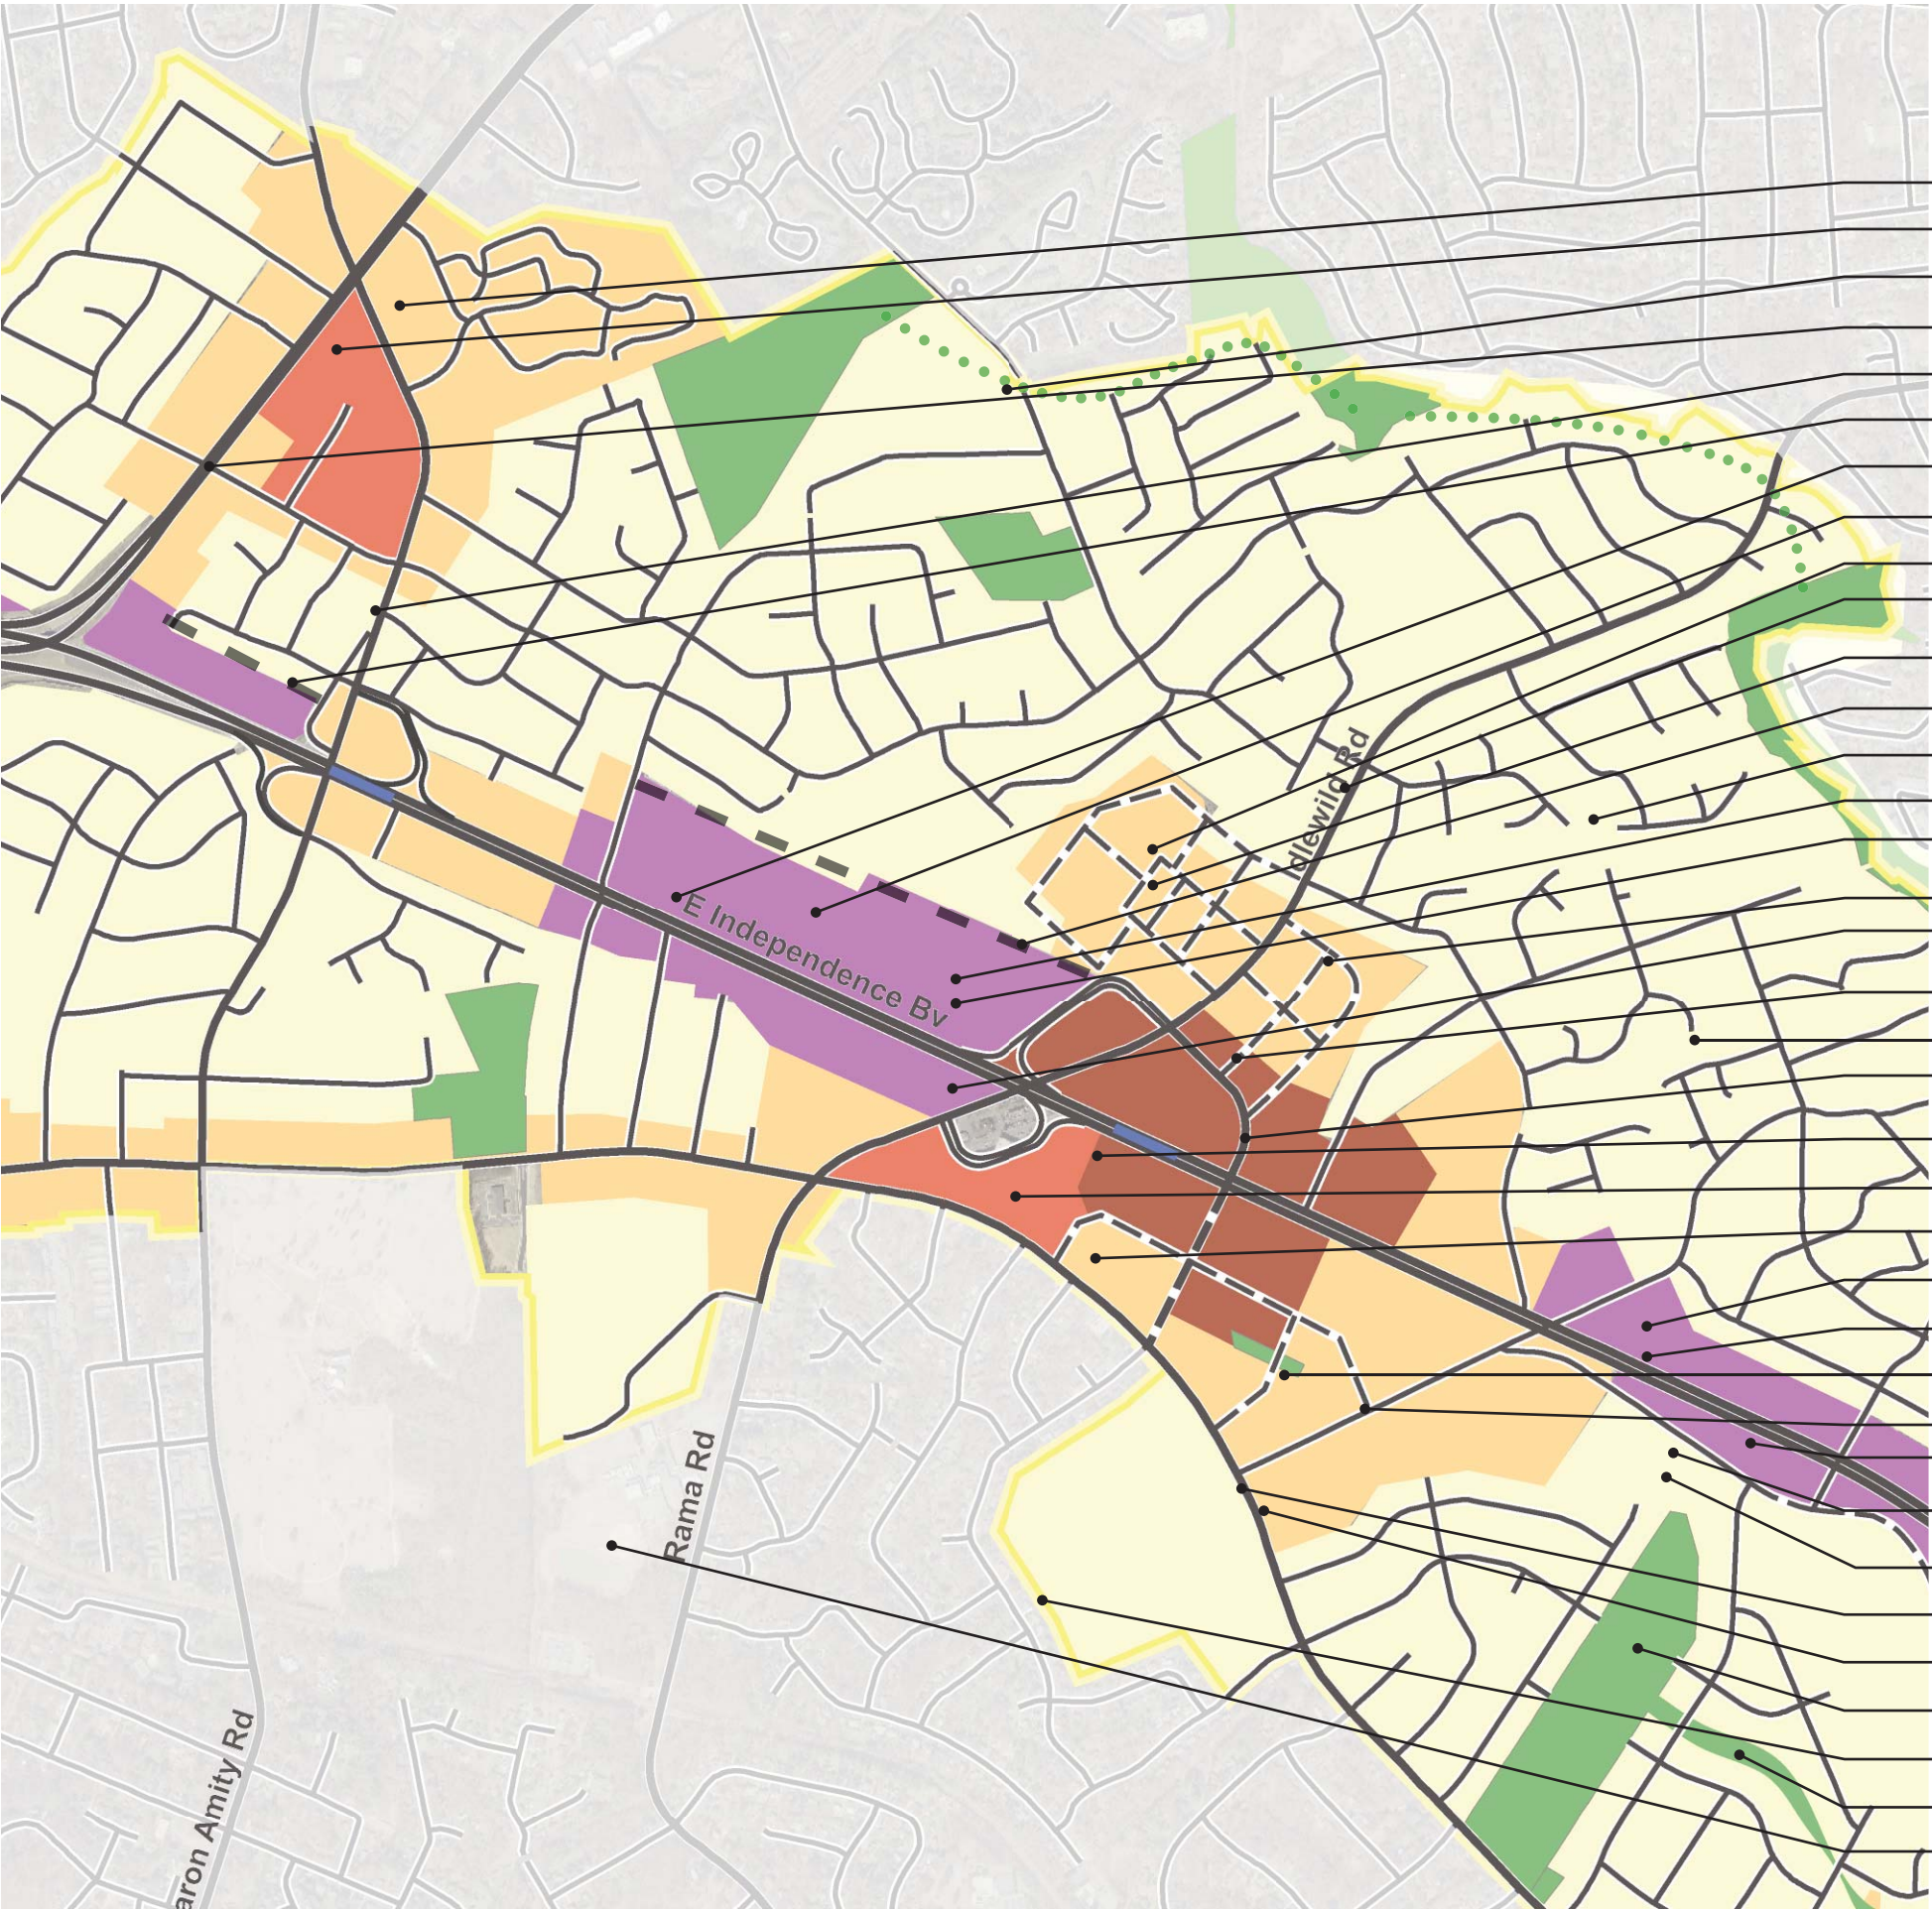

# INDEPENDENCE BOULEVARD AREA PLAN

Community Advisory Group Comments on Draft Character Area Map

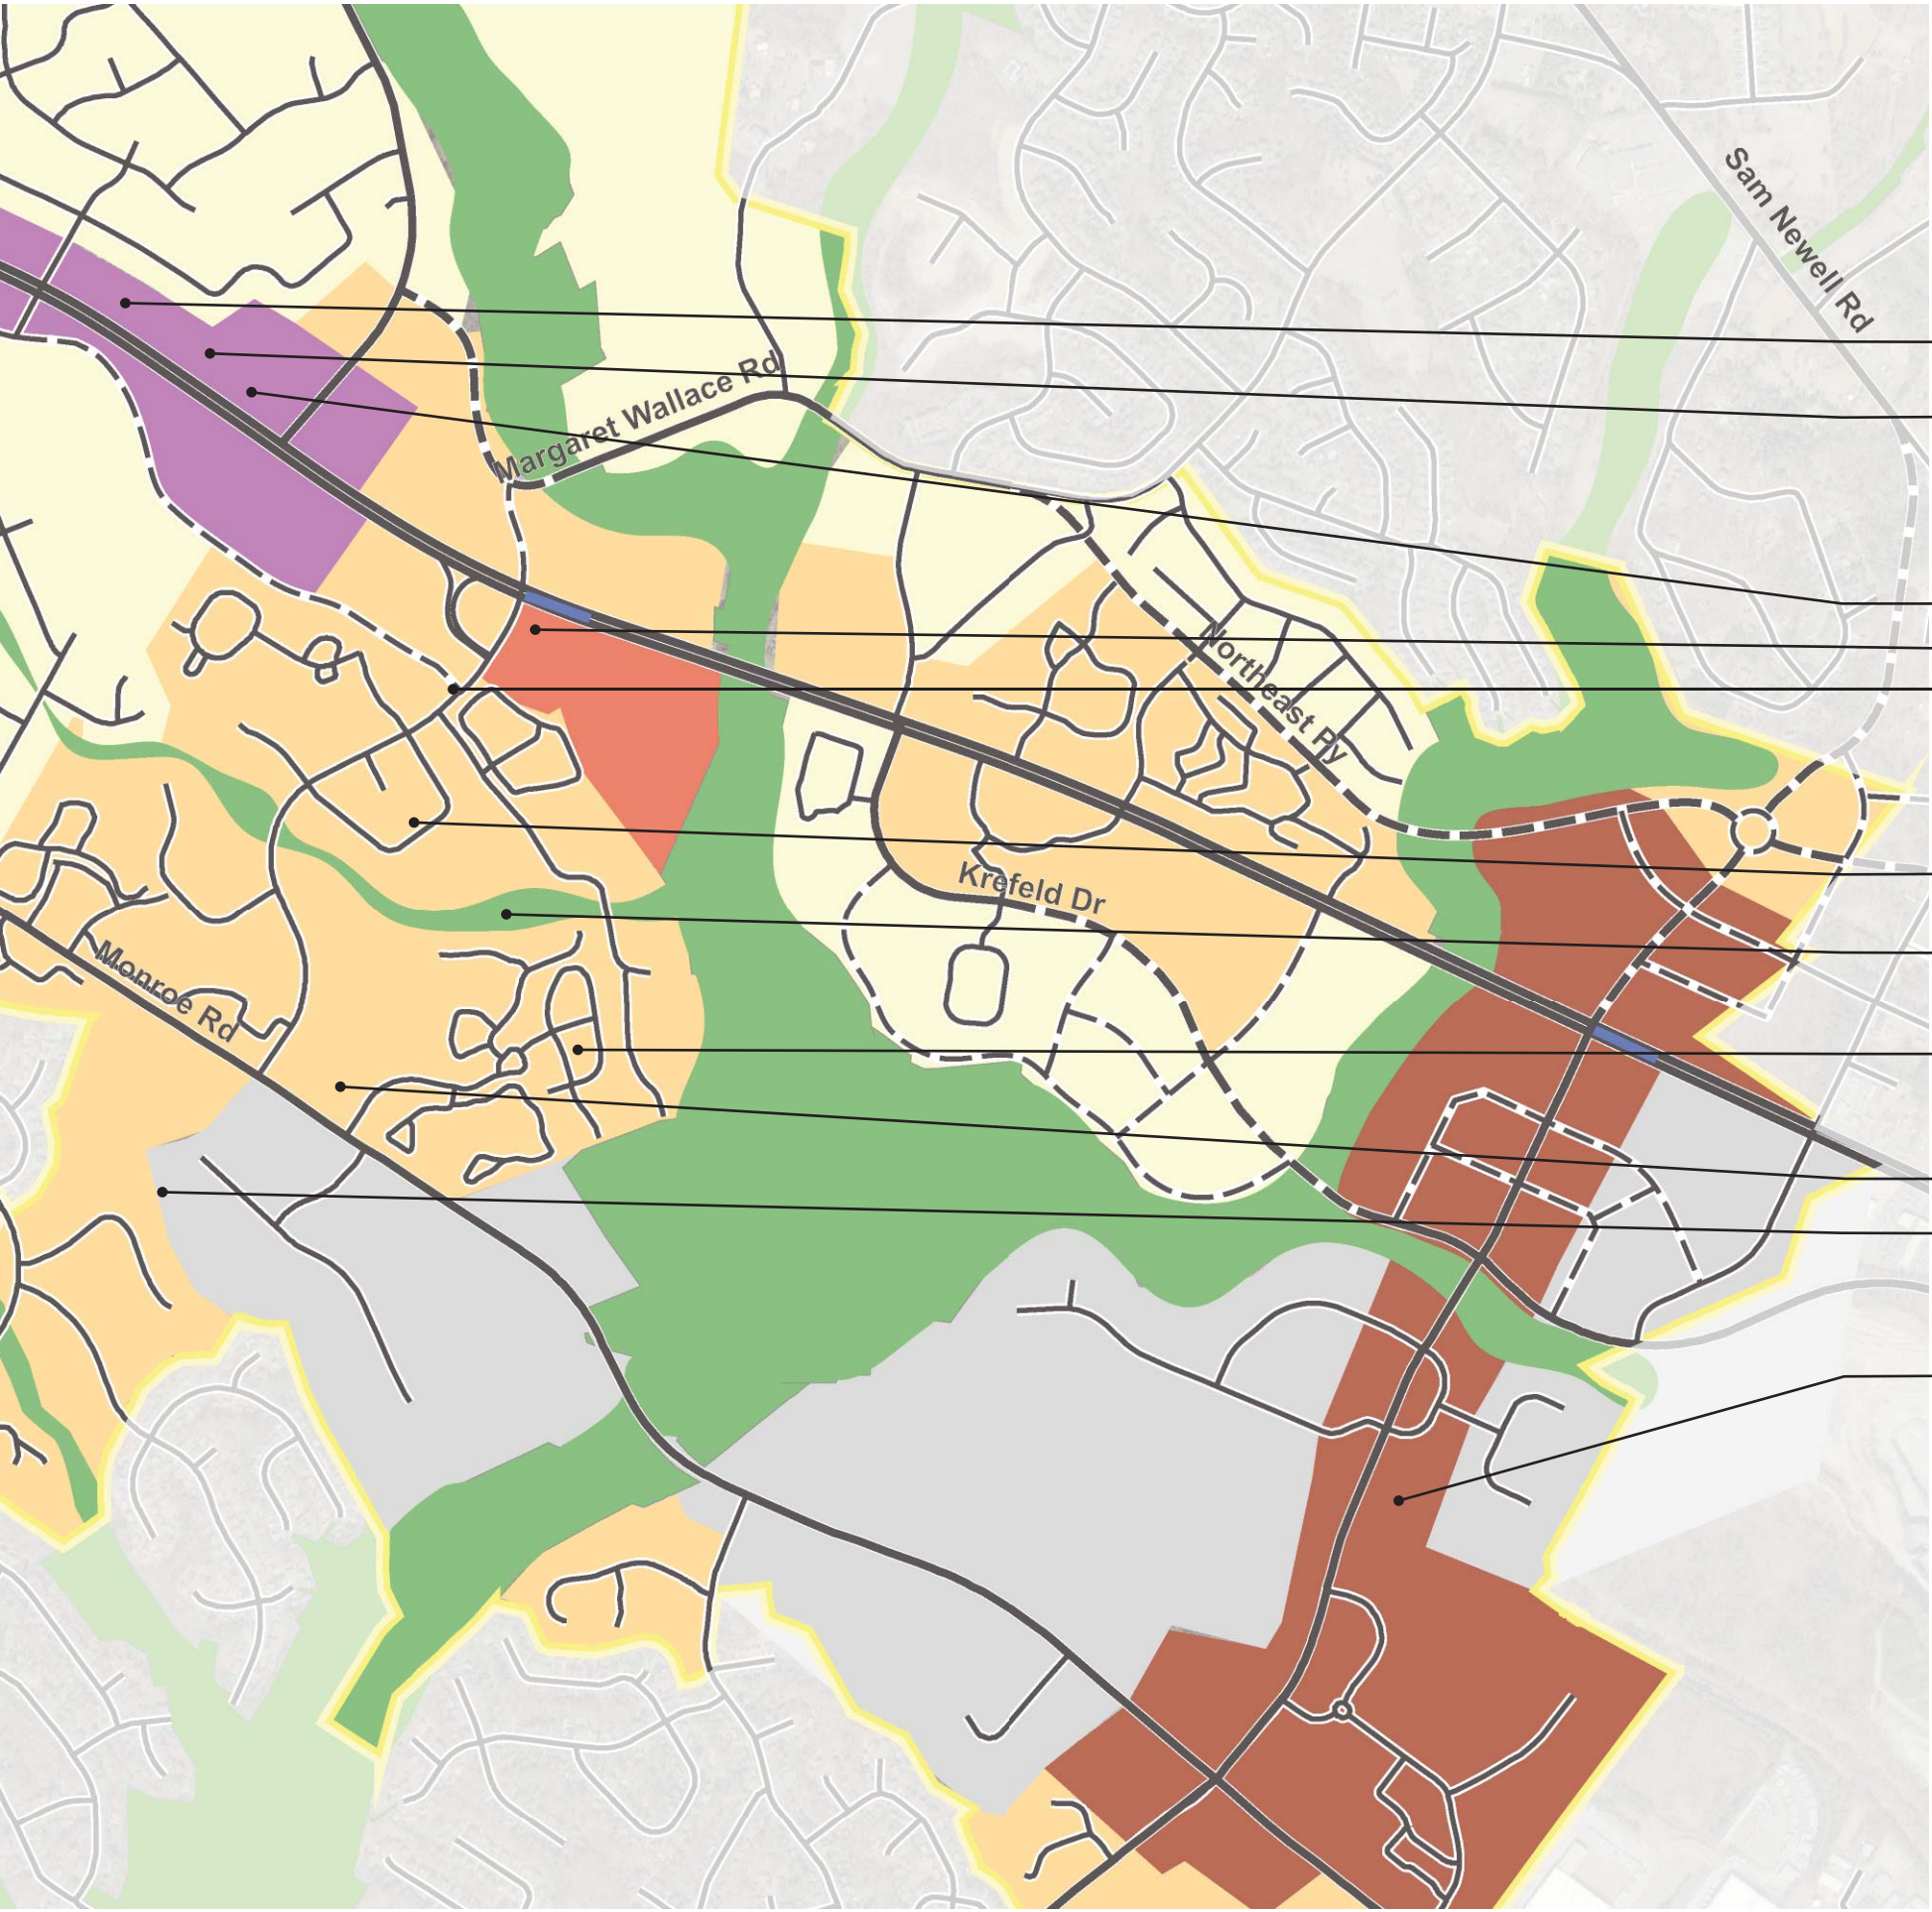

September 5, 2008

Page 2 of 4

- | **Node** Extend node across Sharon Amity
- | **Node** Bad site; no access from northbound Sharon Amity or inbound Albemarle
- | **Greenway** Connect parks in this area with greenways
- | **Connection** Reconnect Pierson across Albemarle
- | **Character** Extend neighborhood core along Sharon Amity
- | **New Street Connection** Incorporate reverse frontage road to support transit-oriented district
- | **Character** Extend neighborhood core along Independence
- | **Character** Change to regional node with townhome and condos and greenway buffer
- | **Current Blight** Condemn and bulldoze awful apartment complexes; make R-4
- | **Character** Extend neighborhood core along major streets leading to transit stations which will support bus service
- | **Node** Redevelop as mixed or multi-use development
- | **New Street Connection** Incorporate reverse frontage road to support transit-oriented district
- | **Pedestrian Connections** Add pedestrian connections between neighborhoods
- | **Character** Make transit -oriented development
- | **Character** No highway-oriented district here; Get rid of car lots; make R-4 other residential (but no apartments)
- | **Current Blight** Condemn and bulldoze Ashley Place apartment complex
- | **Character** Get rid of big box shopping center; need small shops and boutiques; add parks into the mix
- | **New Connections** Yes
- | **Pedestrian Connections** Add pedestrian connections between neighborhoods
- | **Node** Maximize walkability across Independence and strengthen pedestrian connections to neighborhoods
- | **Node** Redevelop shopping center
- | **Node Location** Yes
- | **Current Blight** Bulldoze Castlewood apartment complex
- | **Character** Make transit -oriented development
- | **Barrier** Neighborhood needs sound wall here
- | **Park** Increase park space in node
- | **New Intersection** Traffic circle here
- | **Character** Change to neighborhood core; highway-oriented district here is too narrow to be viable and is an eyesore
- | **Frontage Road** Perhaps the City can purchase dilapidated houses along Wallace Road and move Wallace over a bit away from Independence to make space for neighborhood core development
- | **Park** Expand Mason Wallace Park to Wallace Road and build recreation center
- | **Traffic** Fix situation at these intersections
- | **Park** Add park here in conjunction with East Meck High and library
- | **Park** Make a destination along the greenway
- | **Pedestrian Connections** Add pedestrian connections from neighborhood to East Meck High
- | **Park** Route greenway toward new recreation center, along streets, not through back yards
- | **Park** Add park here

**Character** Too much Highway-Oriented District; do not want to see more strip development

**Frontage Road** Need new frontage road; but do not connect into adjacent neighborhoods

**Character** Should be transit-oriented Class A office space

**Pedestrian Connections** Add new and improve existing pedestrian connections

**Traffic** Include traffic circle at this location

**Character** Need to reduce rental properties in this Core

**Greenways** Connect greenways to restaurants and Neighborhood Nodes where possible

**School** New school needed for this neighborhood

**Greenways** Add this area to greenway network

**New Street Connection** Connect street from Neighborhood Core to Ind/Empl District

**Character** Regional Node is too large and not cohesive or centralized enough

Other Comments

1. Strengthen and Build Neighborhoods

- Pedestrian walkways and catwalks should connect neighborhoods, businesses
- More pedestrian connections to schools
- Bring substantial connectivity between north and south sides of Independence; do not allow it to become a barrier
- Establish many connections between neighborhoods, to eliminate possibility of single cut-through route
- Minimize all cut-through routes
- Install speed humps and other traffic calming devices
- Do not install speed humps
- Ensure that new development is high-quality
- Reduce Section 8 rentals
- Strengthen code enforcement and crime prevention
- No more highway-oriented commercial
- More housing for 55+ community
- More mixed-use developments
- No bars, check cashing stores, or buy here/pay here car lots
- Need to protect existing ranch home neighborhoods from becoming filled with McMansions or multi-family
- Need to protect neighborhoods from noise of freeway

2. Create Nodes

- No big-box in nodes; need small shops and boutiques
- Prefer to see less highway-oriented districts and strip development (which are ugly and out-moded) and create more nodes
- Nodes should include cultural attractions
- Need to consider having some Regional Nodes sit adjacent to Neighborhood Nodes, with high interconnectivity between them
- Adequate buffering is needed between nodes and Independence Blvd

3. Reclaim and Showcase Natural Systems

- Expand green areas and expand existing parks
- Reclaim Edwards Branch
- The Swim Club (formerly Knights of Columbus Swim & Tennis Club) should be taken over by Parks Dept and made public. Club could be connected to greenways.
- Reconstruct creeks
- Connect parks, waterways/lakes, and greenways with bike and walking trails, as well as streets
- Prevent developers from using loopholes to clear-cut land and remove tree canopies
- Area needs a public gym facility
- Require developers to build greenway system as they develop parcels

4. Orient Towards Monroe & Central

- Monroe Road infrastructure (curbs, sidewalks, etc) needs to be upgraded if it is going to play more prominent role
- Roads need traffic calming
- Multiple street connections from Central to Monroe, across Independence, are needed
- The Plan does not pay enough attention to Monroe and Central

5. Leverage Opportunities

- Create a transit hub at Independence/Pecan/Commonwealth/Central where various transit lines could converge
- Create more entertainment, cultural, and family-oriented amenities
- Relocate businesses before changes on Independence force them out of business
- Create tax-free zones to encourage development in certain areas
- Target better office development
- Coordinate Plan with concrete ideas about what we want future tax base to be
- Locate schools and government facilities in places where we are encouraging development

6. Provide Choices

- Ensure new development is more friendly to pedestrians, bikes, and transit
- Allow left turns on Independence
- Need more bike lanes, sidewalks, pedestrian crossings over Independence
- Need better pedestrian access to greenways
- Limit amount and design of parking facilities associated with transit stops

7. Balance Neighborhood, Community, and Regional Needs

- Need more small-scale retail for local residents; especially on north side of Independence
- Need to focus on improving existing apartment complexes
- Do not allow regional road (Independence) to physically divide northern and southern communities
- Schools should be walkable and available for community uses

8. Define U.S. 74

- Strengthen side streets since many businesses cannot survive on Independence
- Put transit line on edges of Independence, not down the middle
- Existing businesses need to maintain their access from U.S. 74
- Plan for frontage roads to serve new Regional Nodes
- Preserve ability to change transit into light rail in the future
- Define noise and light pollution associated with traffic on “new” U.S. 74
- Revitalize Monroe Rd to take over function of serving neighborhood population

9. Implement the Plan

- Now!
- Enforce the upcoming non-residential building code
- Show a mock-up of how a transit station with parking facility, development, etc shown.

General Comments

- Need to better understand demographic and population estimates for the area, in order to understand how many nodes, schools, etc are needed
- Light rail needed to attract higher-quality developers
- Consider establishing tax-free zone for arts and culture (like Providence, RI)
